

SPONSORSHIP OPPORTUNITIES

**13th World Congress on
Food Chemistry and Food Microbiology**

June 09- 10, 2020 | Istanbul, Turkey

our DELEGATE
is your CLIENT

Our Programme

Our programme aims to bridge the gap between basic and translational science, with an emphasis on large-scale approaches and innovative technologies in the fields of Food Chemistry, Food Microbiology, Food Analysis and Quality Assurance, Diet and Cancer and many more.

We foster discussion and debate of the innovations by maximizing interactions, collaborations and networking opportunities for researchers and clinicians from academia, industry, and healthcare professionals

5+ Keynote Sessions

10+ Scientific Sessions

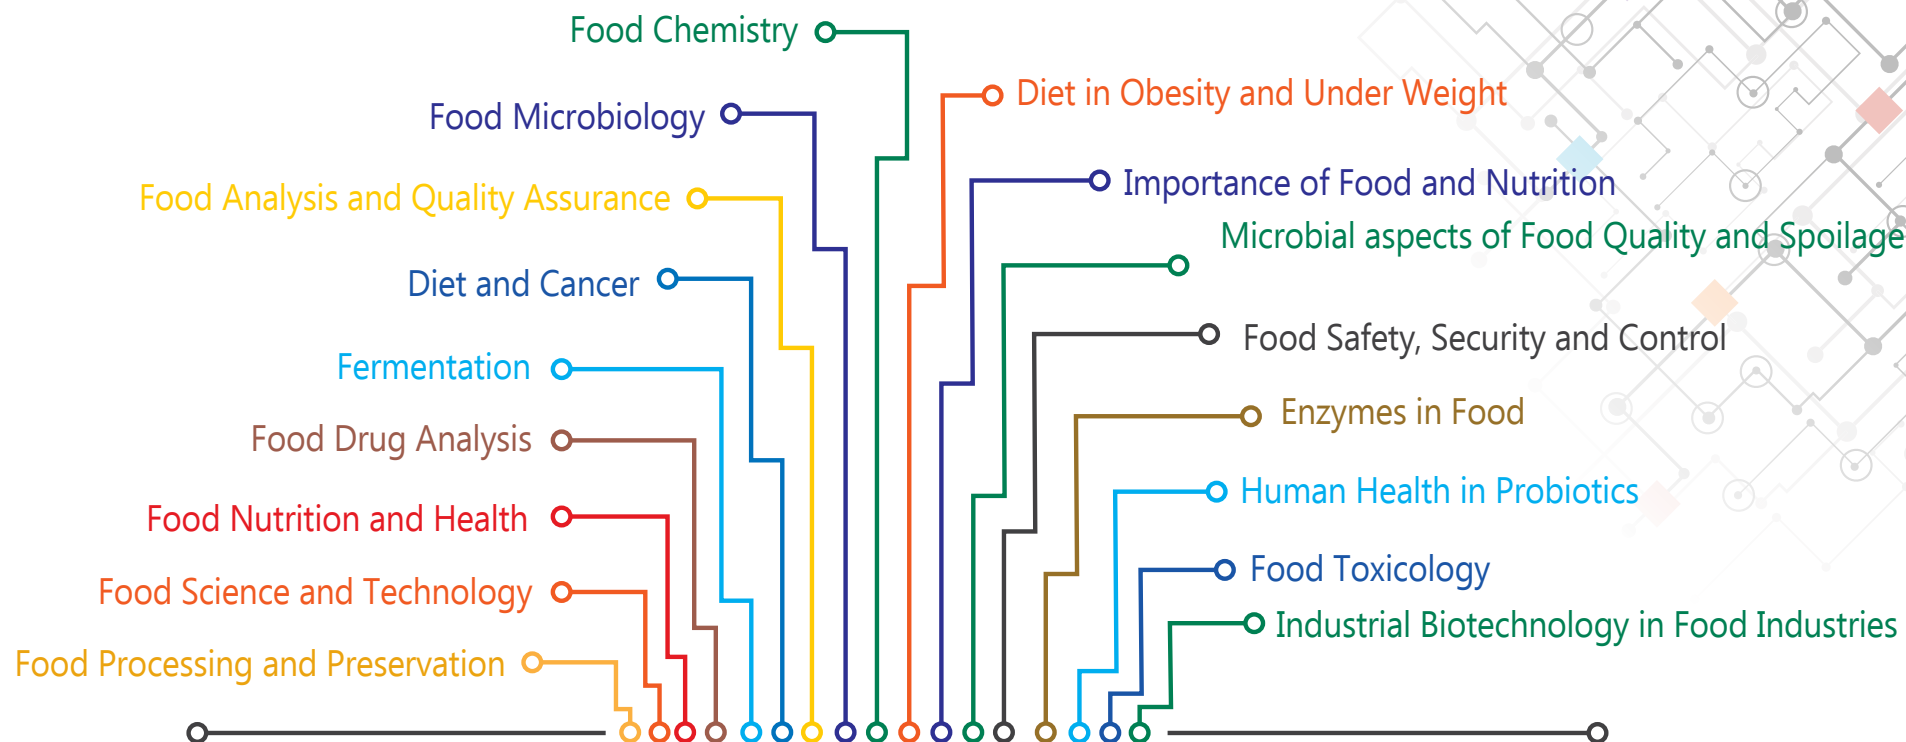

Workshops and
Special Sessions

40+ Oral
Presentations

25+ Poster
Presentations

Young
Researchers
Forum

Conference Sessions

FOOD CHEMISTRY MEET 2020

Venue & Hospitality

Istanbul is a city where you can have a European experience with an Islamic grace, spires and domes of mosques, medieval architecture dominates the skyline. At dawn, you can see people going to mosque for the first prayer as you hear the call of muezzin rebound from the ancient minarets. Istanbul has a very unique ability to make so many diverse things rhyme together. If you are traveling in Istanbul, then you're perhaps going to be spending around 2-3 days in Istanbul before you start exploring the other parts of Turkey.

Turkey is one of the most geographically strategic countries in the world—a potentially lethal bridge between continents. Istanbul is the only city in the world that connects two continents. The city, which is located in both Asia and Europe, has been the capital city for many civilizations for thousands of years throughout its history. Turkey has been called the World's Island, a central meeting point of three continents – Asia, Europe and Africa via the Mediterranean and over centuries was used as the passage way for invaders both going from West to East and from East to West.

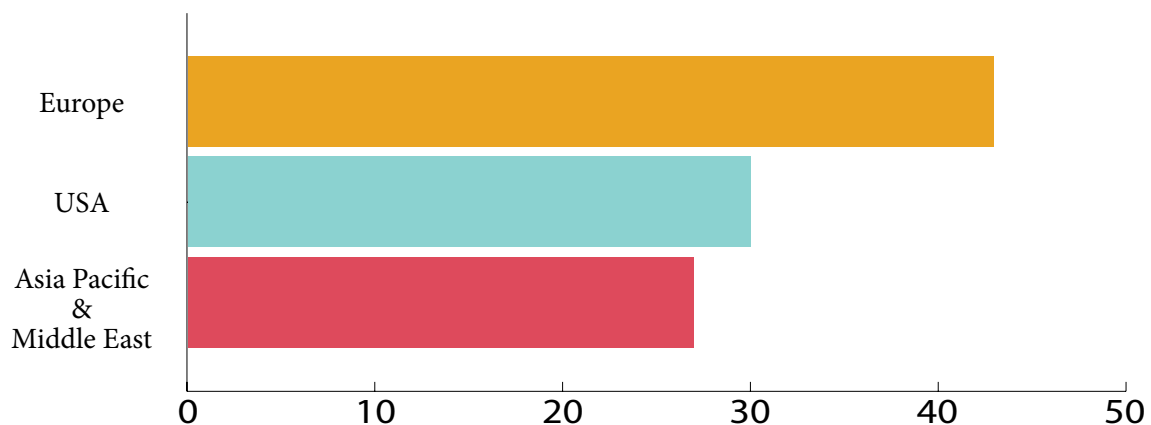

To its south you find Syria, Iraq and Iran; on its east lays Armenia, Georgia and Azerbaijan former Russian satellite nations. To the West, Turkey borders Greece and Bulgaria-European Union nations. It connects to the Mediterranean, Black and Aegean seas, and overlooks the all-important Bosphorus and Dardanelles sea gates, linking Central Asia to the Mediterranean. In a world swayed by energy needs, its nexus location translates into a crucial energy transit hub for Europe, Iran and Russia.

our DELEGATE is your CLIENT

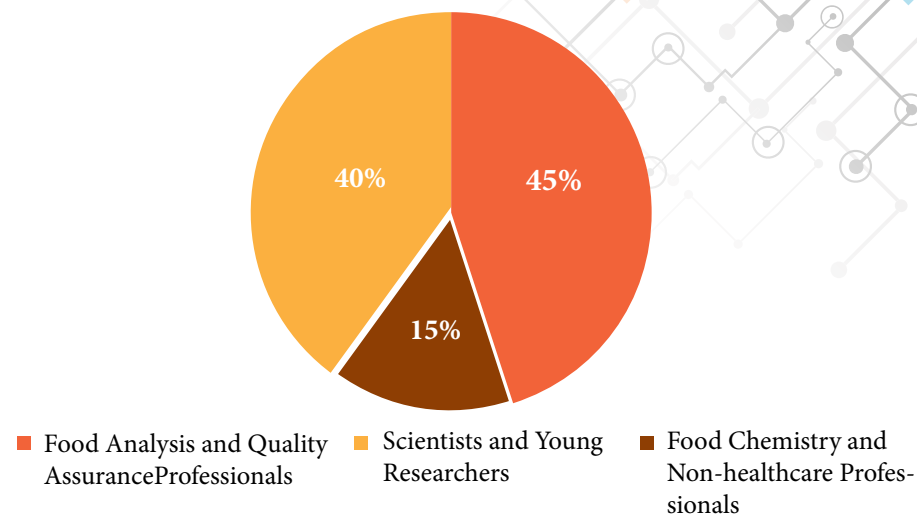

Exhibitors and sponsors have the opportunity for face-to-face networking with leading world doctors and nurses, increase brand awareness, and develop collaborations with an international audience.

In 2017-2018, the top ten countries represented by our delegates were: United States, United Kingdom, Germany, Netherlands, Belgium, Sweden, Canada, France, Switzerland, Japan and Spain
