

Global Summit on

Food Microbiology & Nutrition

December 01-02, 2020 | Kyoto, Japan

*Theme: “Advancements in nutrition
and food microbiology”*

Invitation...

Dear Colleagues,

Global Summit on Food Microbiology & Nutrition (Food Microbiology Congress 2020) extends its welcome to you during **December 01-02, 2020** at **Kyoto, Japan**. with a theme "**Advancements in nutrition and food microbiology**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **Food Microbiology Congress 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Nutrition.

Why to Attend???

Food Microbiology Congress 2020 goal is to provide participants continuing Nutrition education, propose novel research techniques, improve the skills and expertise in the areas of Food Science and Nutrition Microbiology of Fermented Foods Nutritional Value & Quality of Foods Food Spoilage, Poisoning & Toxicology Predictive Food Microbiology with its well-designed scientific program and quality lectures. It also paves way for making a good relationship with the Nutrition associates through the B2B meetings and develops better business opportunities.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Nutrition are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Food Microbiology
- Food Science and Nutrition
- Microbiology of Fermented Foods
- Predictive Food Microbiology
- Nutritional Value & Quality of Foods
- Food Spoilage, Poisoning & Toxicology
- Food safety & quality
- Food Processing and Engineering
- Brewing Microbiology
- Food Biotechnology
- Food Risk Assessment
- Food Market and Business
- Probiotics & Prebiotics
- Applied Dairy Microbiology
- Microbiology of Meat and Poultry
- Microbiology Agriculture, Environmental Food and Industrial Microbiology
- The Microbiology and Microanalysis of Foods
- Advances in Microbiology, Infectious Diseases and Public Health

Food Microbiology Congress 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Journals of Forensic Research
 - ☞ Journal of Health and Medical informatics
 - ☞ Journal of experimental Food Chemistry

Program at Glance

December 01, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 - 11:30	Keynote Forums
---------------	----------------

Group Photo

11:30 - 11:45	Network & Refreshment Break
---------------	-----------------------------

11:45 - 13:00	Food Microbiology Food Science and Nutrition Microbiology of Fermented FoodsAntioxidants and Aging
---------------	--

13:00 - 13:45	Lunch Break
---------------	-------------

13:45 - 16:00	Nutritional Value & Quality of Foods Food Spoilage, Poisoning & Toxicology Food Spoilage, Poisoning & Toxicology
---------------	--

16:00 - 16:15	Network & Refreshment Break
---------------	-----------------------------

16:15 - 18:00	Food safety & quality Food Processing and Engineering Brewing Microbiology The Microbiology and Microanalysis of Foods
---------------	--

Day Concludes

---------------	-----------------------------

16:15 - 18:00	Poster Presentations
---------------	----------------------

Day Concludes

Award Ceremony

City Attractions

Venue :

Kyoto, Japan

Kyoto is located in a valley, part of the Yamashiro (or Kyoto) Basin, in the eastern part of the mountainous region known as the Tamba highlands.

The Yamashiro Basin is surrounded on three sides by mountains known as Higashiyama, Kitayama and Nishiyama, with a height just above 1,000 metres (3,281 ft) above sea level. This interior positioning results in hot summers and cold winters. There are three rivers in the basin, the Ujigawa to the south, the Katsuragawa to the west, and the Kamogawa to the east.

Kyoto City takes up 17.9% of the land in the prefecture with an area of 827.9 square kilometres (319.7 sq mi).

The original city was arranged in accordance with traditional Chinese feng shui following the model of the ancient Chinese capital of Chang'an. The Imperial Palace faced south, resulting in Ukyō (the right sector of the capital) being on the west while Sakyō (the left sector) is on the east. The streets in the modern-day wards of Nakagyō, Shimogyō, and Kamigyō-ku still follow a grid pattern.

Today, the main business district is located to the south of the old Imperial Palace, with the less-populated northern area retaining a far greener feel. Surrounding areas do not follow the same grid pattern as the centre of the city, though streets throughout Kyoto share the distinction of having names. Kyoto sits atop a large natural water table that provides the city with ample freshwater wells. Due to large-scale urbanization, the amount of rain draining into the table is dwindling and wells across the area are drying at an increasing rate.
