

International Conference on  
**Genetic Disorders and  
Gene Therapy**

May 18-19, 2020 | Auckland, Newzealand

*Theme: “Current research and  
futuristic challenges in Genetics”*

# Invitation...

Dear Colleagues,

**International Conference on Genetic Disorders and Gene Therapy (GENETIC DISORDERS 2020)** extends its welcome to you during **May 18-19, 2020** at **Auckland, Newzealand**. with a theme "**Current research and futuristic challenges in Genetics**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **GENETIC DISORDERS 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Genetics & Molecular Biology.

## Why to Attend???

GENETIC DISORDERS 2020 goal is to provide participants continuing dental education, propose novel research techniques, improve the skills and expertise in the areas of Dental Health, Oral Care, Public Health Dentistry, Endodontics and Orthodontics with its well-designed scientific program and quality lectures. It also paves way for making a good relationship with the dental associates through the B2B meetings and develop better business opportunities.

# Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology and Healthcare are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Human Genetics
- Gene Editing
- Stem Cell in Gene Therapy
- Pediatric Geneticist
- Gene Therapy
- Genetic Disorder
- Genome Editing
- Nano Therapy
- Clinical Trials on Cell & Gene Therapy
- Biomarkers
- Regulatory and Safety Aspects of Cell and Gene Therapy

## GENETIC DISORDERS 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
  - ☞ Journal of Molecular and Genetic Medicine
  - ☞ Journal of Tissue Science & Engineering
  - ☞ Human Genetics & Embryology

# Program at Glance

May 18, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 -11:30	Keynote Forums
--------------	----------------

Group Photo

11:30 -11:45	Network & Refreshment Break
--------------	-----------------------------

11:45 -13:00	Rational drug design approach   Biopharmaceutics   Reformulation studies   Pharmaceutical materials & formulations
--------------	--

13:00 -13:45	Lunch Break
--------------	-------------

13:45 -16:00	Ligand-based drug desing   Genetics in drug development   Drug target   Computer aided drug design(CADD)
--------------	--

16:00 -16:15	Network & Refreshment Break
--------------	-----------------------------

16:15 -18:00	Novel nanotechnology applications   Biomedical nanotechnology   Nano particles and Nano gels
--------------	--

Day Concludes

May 19, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 -10:30	Keynote Forums
--------------	----------------

10:30 -11:30	Introduction of morder engineering process   New measurement and control technologies   Pharmaceutical market
--------------	---

11:30 -11:45	Network & Refreshment Break
--------------	-----------------------------

11:45-13:00	Matrix diffusion types   Future aspects of Nano medicine   Nano medicine for CNS   Bioanalytical techniques   Spectroscopic techniques
-------------	--

13:00 -13:45	Lunch Break
--------------	-------------

13:45 -16:00	Rapid screening methods   Environmental monitoring   Product management   Good manufacturing practices   Industrial pharmaceuticals
--------------	---

16:00 -16: 15	Network & Refreshment Break
---------------	-----------------------------

16:15 -18:00	Poster Presentations
--------------	----------------------

Day Concludes

Award Ceremony

Conferece Concludes

Auckland is a city in the North Island of New Zealand. Auckland is the largest urban area in the country, with an urban population of around 1,628,900. It is located in the Auckland Region—the area governed by Auckland Council—which includes outlying rural areas and the islands of the Hauraki Gulf, resulting in a total population of 1,695,900. A diverse and multicultural city, Auckland is home to the largest Polynesian population in the world. The Māori-language name for Auckland is Tāmaki or Tāmaki-makau-rau, meaning “Tāmaki with a hundred lovers”, in reference to the desirability of its fertile land at the hub of waterways in all directions. It has also been called Ākarana, a transliteration of the English name.

The isthmus on which Auckland resides was first settled around 1350 and was valued for its rich and fertile land. The Māori population in the area is estimated to have peaked at 20,000 before the arrival of Europeans.

After a British colony was established in 1840, William Hobson, then Lieutenant-Governor of New Zealand, chose the area as his new capital. He named the area for George Eden, Earl of Auckland, British First Lord of the Admiralty. It was replaced as the capital in 1865 by Wellington, but immigration to the new city stayed strong, and it has remained the country’s most populous urban area. Today, Auckland’s central business district is the major financial center of New Zealand.
