Invitation

Dear Colleagues,

We invite all the participants across the world to attend the **International Conference on Genetic Disorders and Gene Therapy** during **August 26-27, 2019 Bangkok, Thailand**. The theme of the conference is “**Current research and futuristic challenges in Genetics**” and to encourage young minds and their research abilities by providing an opportunity to meet the experts in the field of Genetic Disorders. Genetic Conferences 2019. Gene therapy is a complex process involves incorporation of specific engineered genes into the affected cells where different kinds of viruses are used as vectors like retroviruses, adenoviruses, adeno-associated viruses, herpes simplex viruses. Genetics deals with gene sciences and its disorders. Genetics is an emerging group of sciences, which involves medicine, genetic engineering, and other biological sciences. Disorders in gene composition, called mutation may result in genetic disorders that need gene therapy treatment. Failure of treatment succeeds the mutant genes to off springs causing hereditary diseases or disorders.

With Regards,

Genetics & Gene Therapy 2019

Program Announcement

Venue

Bangkok, Thailand

Important Dates

Abstract Submission Opens: January 01, 2019

Online Registration Opens: January 01, 2019

Early bird Registration Opens: May 20, 2019

On spot Registration: August 26, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Genetics & Gene Therapy 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Genetic Disorders and Gene Therapy Care.

About Bangkok, Thailand

Bangkok is the capital and most famous city of the Kingdom of Thailand. The city occupies 1,568.7 square kilometres in the Chao Phraya River delta in Central Thailand, and has a populace of more than eight million. The official cash in Bangkok is Baht (THB). Even though, the Thai language is the most broadly used language of Bangkok, the migration of different non-Thai people group has prompted the penetration of numerous different languages in the place. Bangkok is linked with the other nations through the national highway and rail systems, and in addition by domestic and International flights to and from the city's two international airports. Road based transport is the principle mode of transport in Bangkok.

Bangkok is also called as "Krung Thep" which implies "City of Angels" and is a famous tourist destination, visited by a large number of guests from all around the world. The city is the well known tourist spot of the entire East Asia and represents a mix of tradition and modernity. Guests will appreciate its advanced skyscrapers, luxury hotels and shopping malls, alongside the traditional Thai culture that still retains its own charm.

There are a lot of things to see and do in Bangkok; the city has impressive temples, galleries, showcases, shopping centers, various bars, night club and cinemas and also, there are numerous cultural attractions, for example, national museums, the Siam Society, the Thailand Cultural Center and the National Library. One of the most famous destinations is the floating market of Damnoen Saduak. It's where Visitors can taste local food, while an expert guide takes on a boat ride along the canals where visitors can purchase huge amounts of souvenirs for loved ones.
