

International Congress on

Geotechnical Engineering and Geographic Information System

October 23-24, 2020 | Osaka, Japan

*Theme: “Advancements in Geotechnical Engineering
and Geographic Information”*

Invitation...

Dear Colleagues,

International Congress on Geotechnical Engineering and Geographic Information System (GEOPHYSICS CS 2020) extends its welcome to you during **October 23-24, 2020** at **Osaka, Japan**. with a theme "**Advancements in Geotechnical Engineering and Geographic Information**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **GEOPHYSICS CS 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Geotechnical Engineering and Geographic Information System.

Why to Attend???

GEOPHYSICS CS 2020 goal is to provide participants continuing dental education, propose novel research techniques, improve the skills and expertise in the areas of Dental Health, Oral Care, Public Health Dentistry, Endodontics and Orthodontics with its well-designed scientific program and quality lectures. It also paves way for making a good relationship with the dental associates through the B2B meetings and develop better business opportunities.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Geotechnical Engineering and Geographic Information System are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Quantum States
- Quantum Mechanics Interpretation
- Quantum Physics Formulation
- Quantum Field Theory
- Strings in Quantum Physics
- In Depth of Nuclear Engineering
- Nuclear Engineering
- Interaction and Maintenance
- In Depth Quantum Mechanics
- Quantum Transport and Dissipation
- Latest Technologies, Innovations and Instruments

GEOPHYSICS CS 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Journal of Civil and Environmental Engineering
 - ☞ Journal of Industrial Engineering & Management
 - ☞ Journal of Material Sciences & Engineering

Program at Glance

October 23, 2020

Time	Session
08:30 - 09:30	Registrations
09:30 - 11:30	Keynote Forums
	Group Photo
11:30 - 11:45	Network & Refreshment Break
11:45 - 13:00	Heavy-ion-Physics Nuclear Medicine Physics Atomic and Molecular Astrophysics
13:00 - 13:45	Lunch Break
13:45 - 16:00	Atomic Physics Conferences Molecular Physics Conferences Quantum States Quantum Mechanics Interpretation
16:00 - 16:15	Network & Refreshment Break
16:15 - 18:00	Quantum Physics Formulation Quantum Field Theory
	Day Concludes

October 24, 2020

Time	Session
08:30 - 09:30	Registrations
09:30 - 10:30	Keynote Forums
10:30 - 11:30	In Depth of Nuclear Engineering Nuclear Engineering Interaction and Maintenance
11:30 - 11:45	Network & Refreshment Break
11:45 - 13:00	In Depth Quantum Mechanics Quantum Transport and Dissipation
13:00 - 13:45	Lunch Break
13:45 - 16:00	Latest Technologies Innovations and Instruments
16:00 - 16:15	Network & Refreshment Break
16:15 - 18:00	Poster Presentations
	Day Concludes
	Award Ceremony
	Conferece Concludes

OSAKA (about 330 miles southwest of Tokyo) is the second largest city in Japan and the 13th largest city in the world, with a population of about 10.5 million people. Situated on a sheltered bay, it is also the commercial, shipping and industrial center of western Japan, the second major gateway to Japan after Tokyo and the transportation and communication hub of the Kansai region, with a convenient connections to Kyoto, Nara, and Kobe, the Inland Sea area, and Shikoku, which are all nearby. Even though Osaka is flat as flat can be its name means "big hill." Foreign guide books usually do not have much nice to say about Osaka. One said its biggest claims to fame were the yakuza and pachinko. Another called the "Elephant Man" of Japan---ugly but wanting desperately to be loved.

Many say it is the heart of Japan. The people may be a little crude, inconsiderate and pushy at times, yes, but they are also more warm, open and generous. Many of Japan's funniest comedians are from Osaka. Osaka isn't a very attractive place. Sometimes it seems like an endless concrete jungle of crowded streets and sidewalks, train lines, factories, office buildings, pre-fab homes and apartments squeezed much too close together. There isn't all that much to see either. The main tourist sites include a concrete castle, an ultra-modern aquarium with a whale shark and the first Universal Studio to open up outside the United States.
