Invitation...

Dear Colleagues,

In regard to the mind-boggling achievement of past Gastroenterology Conferences, Conference Series Ltd heartily invites you to attend the **"15th International Conference on Digestive Disorders and Gastroenterology "** to be commenced from **July 11-12, 2018** at **Sydney, Australia**.

Theme: **"Advancing Gastroenterology in the Multidisciplinary Management of Digestive Diseases"**. GI Diseases 2018 provides an ideal platform for the scientific community as an interactive and engaging 2-day event. The Scientific program will focus on current trends and novel techniques in the field of gastroenterology.

We look forward to welcoming you to Sydney, Australia!

With Regards,
Scientific Committee
GI Diseases 2018

Glimpses of past conference

Tourist Attractions

Venue

Australia - Apart from being a great place to get a first-rate education, Australia is also a fantastic place to live. It provides a welcoming and multicultural society with a population that originates from around 200 countries. Australian people have a reputation for being amongst the friendliest in the world, and Australian cities are safe and clean, with low crime rates. The lifestyle and quality of living in Australia is among the best in the world. Several of Australia's capital cities regularly rank among the world's 'most livable' cities

Sydney has a reputation for being beautiful but shallow, but like the pretty girl in high school, she is often misunderstood and falsely labelled a show pony. Look a little closer and you'll find a city with a long and complex history, and one that's about so much more than being ridiculously good looking.

Venue:
Sydney, Australia
