## Venue

Osaka, Japan

## Important Dates

Abstract Submission Opens: August 1, 2018

Registration Opens: September 01, 2018

Early Bird Registration: November 30, 2018

On Spot Registration: July 22, 2019

## Accommodation

A large number of rooms have been reserved. Discounted room rates for GI Diseases 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Obesity & Metabolic Diseases.

## About Osaka

Osaka has developed as the gateway to Japan, serving as a centre for international trade and cultural interaction. It had its own port by the 5th century and by the 17th century; the city had become a center of distribution for the rest of Japan, with many specialty products from the provinces finding their way to Osaka. The canals and bridges that were built by the people to facilitate the movement of goods helped to shape the city and their influence can still be seen to this day. Riverside attractions include the tree-lined banks of the gently flowing rivers in the Okawa~Nakanoshima area, the lively Dotombori area and the Bay area with its new amusements and theme parks.

Osaka is a designated city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with over 19 million inhabitants. Situated at the mouth of the Yodo River on Osaka Bay, Osaka is Japan's third largest city by the daytime population after the Tokyo 23 wards and Yokohama and serves as a major economic hub. If Tokyo is Japan's capital, one might call Osaka its anti-capital. The main international gateway to Osaka is Kansai International Airport.
