Dennis O Adeegbe

Osaka University, Japan

Kamran Kadkhoda

University of Manitoba, Canada

Susana Noemi Asin

Geisel School of Medicine, USA

Poonia Bhawna

University of Maryland Baltimore, USA

Program Announcement

12+ Interactive Sessions

Venue
Singapore

Important Dates

Abstract submission opens: November 21, 2018
Early bird registration opens: November 25, 2018
On spot registration: September 10, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Global Infections 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Infectious Diseases.

About Singapore

Singapore, an island city-state off southern Malaysia, is a global financial center with a tropical climate and multicultural population. It has been Southeast Asia's most modern city for over a century. As of 2015 there are 7 public hospitals, 9 national speciality centres, 10 private hospitals, and private community hospitals are located. Singaporean hospitals are equipped with advanced medical technology and are able to offer edge treatments with outcomes comparable to renowned institutions worldwide. Singapore is ranked as one of the world's top destinations for plastic surgery. The IMD World Competitiveness Yearbook ranked Singapore's Health Infrastructure 3rd out of 55 countries. Singaporean orthopedics market includes the success of Singapore General Hospital as the first hospital in Southeast Asia to perform minimally invasive spine surgery. The Medical Tourism Association has identified Singapore as the most prominent hub for foreigners to travel and receive surgical care. Singapore hosts the regional secretariats of prominent international healthcare organizations such as the International Diabetes Federation (IDF), and Joint Commission International (JCI). The Asia-Pacific office of the Healthcare Information and Management Systems Society (HIMSS) is also in Singapore. International research organizations that have established their presence here include the American Association for Cancer Research, Duke University, and Johns Hopkins University. Companies and scientists are working with these research institutes to accelerate drug discovery and develop novel therapies for unmet healthcare needs. Major healthcare providers in the public sector include Sing Health and National Healthcare Group.
