B2B Meetings

Dear Colleagues,

Conference Series llc LTD., is delighted to welcome you to Singapore for the Prestigious **6th World Congress on Green Chemistry and Recycling**. Green Chemistry Congress 2019 will focus on “**Advancements in Recycling for a Sustainable Future**”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Singapore.

With Regards,

Green Chemistry Congress 2019

Operating Committee, Conference Series llc LTD. Conferences

Editorial Board Members of Supporting Journals:

Jim Park

University of Wisconsin-Madison, USA

Junbeum Kim

University of Technology of Troyes, France

Jun Yen Uan

National Chung Hsing University, Taiwan

Silvio Vaz Jr

Brazilian Agricultural Research Corporation, Brazil

Calvin lakhan

Ontario Center of Recycling Research, Canada

Qudong Wang

Important Dates

Abstract Submission Opens: September 3, 2018

Registration Opens: September 3, 2018

Early Bird Registration: January 26, 2019

Mid Date Registration: February 26, 2019

On Spot Registration: May 13, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Green Chemistry Congress 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Cardiology and Medicine.

About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometers (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation. Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets and it's an Asian business center that's a model of efficiency.
