Global Meet on
**Green and
Sustainable Chemistry**

December 07-08, 2020 | Sydney, Australia

*Theme: "Green and Sustainable Chemistry:
Advancing Towards a Safer and Sustainable Future"*

<https://greenchemistry.materialsconferences.com/>

Invitation...

Dear Colleagues,

Global Meet on Green and Sustainable Chemistry (Greenchemistry Materials 2020) extends its welcome to you during **December 07-08, 2020** at **Sydney, Australia**. with a theme **"Green and Sustainable Chemistry: Advancing Towards a Safer and Sustainable Future"**. Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **Greenchemistry Materials 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Green and Sustainable Chemistry.

Why to Attend???

Greenchemistry Materials 2020 goal is to provide participants continuing dental education, propose novel research techniques, improve the skills and expertise in the areas of Dental Health, Oral Care, Public Health Dentistry, Endodontics and Orthodontics with its well-designed scientific program and quality lectures. It also paves way for making a good relationship with the dental associates through the B2B meetings and develop better business opportunities.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology and Healthcare are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Biomass and Bioenergy
- Cleaner production and Green Nanotechnologies
- Pollution prevention and control
- Green Chemistry and Technology
- Green Chemical Reactions
- Green Energy & Renewable Resources
- Green Engineering and Sustainable Designing
- Green Technologies in Food Manufacture & Processing
- Waste Management
- Ultra Sound Technology in Green Chemistry
- Green Economy
- Green Manufacturing

Greenchemistry Materials 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Chemical Sciences Journal
 - ☞ Chemical Informatics
 - ☞ Oil and Gas Research

December 07, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 - 11:30	Keynote Forums
---------------	----------------

Group Photo

11:30 - 11:45	Network & Refreshment Break
---------------	-----------------------------

11:45 - 13:00	Biomass and Bioenergy Cleaner production and Green Nanotechnologies
---------------	---

13:00 - 13:45	Lunch Break
---------------	-------------

13:45 - 16:00	Pollution prevention and control Green Chemistry and Technology
---------------	---

16:00 - 16:15	Network & Refreshment Break
---------------	-----------------------------

16:15 - 18:00	Green Chemical Reactions Green Energy & Renewable Resources
---------------	---

Day Concludes

December 08, 2020

Sydney is the state capital of New South Wales and the most populous city in Australia and Oceania. Located on Australia's east coast, the metropolis surrounds Port Jackson and extends about 70 km (43.5 mi) on its periphery towards the Blue Mountains to the west, Hawkesbury to the north, the Royal National Park to the south and Macarthur to the south-west. Sydney is made up of 658 suburbs, 40 local government areas and 15 contiguous regions. Residents of the city are known as "Sydneyiders".

As of June 2017, Sydney's estimated metropolitan population was 5,230,330 and is home to approximately 65% of the state's population.

Indigenous Australians have inhabited the Sydney area for at least 30,000 years, and thousands of engravings remain throughout the region, making it one of the richest in Australia in terms of Aboriginal archaeological sites. During his first Pacific voyage in 1770, Lieutenant James Cook and his crew became the first Europeans to chart the eastern coast of Australia, making landfall at Botany Bay and inspiring British interest in the area. In 1788, the First Fleet of convicts, led by Arthur Phillip, founded Sydney as a British penal colony, the first European settlement in Australia. Phillip named the city Sydney in recognition of Thomas Townshend, 1st Viscount Sydney. Penal transportation to New South Wales ended soon after Sydney was incorporated as a city in 1842.
