## *About Osaka*

*Singapore; the Malay name for “Lion City”. The city-state in Southeast Asia consists of the island of Singapore and about 54 smaller islands. The main island is linked by a causeway to Johor Baru on the southern tip of the Malay Peninsula. Singapore is famous for being a global financial center, a shopping paradise, and as a spot for a variety of activities, dining and entertainment. Singapore is much more than the sum of its numerous attractions. Tourism forms a large part of the economy, with over 15 million tourists visiting the city state in 2014. To expand the sector, casinos were legalised in 2005, but only two licenses for “Integrated Resorts” were issued, to control money laundering and addiction.*
