## B2B Meetings

### Venue

Osaka, Japan

### Important Dates

Abstract submission opens: September 15, 2018

Registration opens: September 15, 2018

Early bird registration: October 22, 2018

On spot registration: May 15, 2019

### Accommodation

A large number of rooms have been reserved. Discounted room rates for Hepatitis 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

### Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Cardiology and Medicine.

### About Osaka

Japan is a leading nation in scientific research, particularly in fields related to the natural sciences and engineering. The country ranks second among the most innovative countries in the Bloomberg Innovation Index. Nearly 700,000 researchers share a US\$130 billion research and development budget. The amount spent on research and development relative to the gross domestic product is the third highest in the world. The country is a world leader in fundamental scientific research, having produced twenty-two Nobel laureates in either physics, chemistry or medicine and three Fields Medallists. Japanese scientists and engineers have contributed to the advancement of agricultural sciences, electronics, industrial robotics, optics, chemicals, semiconductors, life sciences and various fields of engineering. Japan leads the world in robotics production and use, possessing more than 20% (300,000 of 1.3 million) of the world's industrial robots as of 2013—though its share was historically even higher, representing one-half of all industrial robots worldwide in 2000. Japan boasts the third highest number of scientists, technicians, and engineers per capita in the world with 83 scientists, technicians and engineers per 10,000 employees.
