Why to Attend???

Hepatitis congress 2020 provides a great platform to grow your connections by gathering eminent people like professors, Researchers, scientists, industrialists, Students and delegates to exchange new ideas and knowledge. This conference is mainly focusing on a wide range of topics and allows participants to discuss about the management of liver diseases and Hepatitis.

Hepatitis refers to an inflammatory condition of the liver. It is the branch of medicine focused on digestive system and its disorders. Hepatology is the study of Liver, gall bladder, biliary tree and pancreas and its disorders. This is the best chance for all the doctors as well as scientific researchers and students to find out the new techniques in Gastroenterology and Hepatology and find out the different ways of treatments to be given to the patients affected with Hepatitis. so don't miss the opportunity and be a part of it as the new era begins.

Hepatitis is commonly caused by a viral infection, but there are other possible causes of hepatitis. These include autoimmune hepatitis and hepatitis that occurs as a secondary result of medications, drugs, toxins, and alcohol. Autoimmune hepatitis is a disease that occurs when your body makes antibodies against your liver tissue.
