The conference covers the major topics and recent developments in Diabetes and Endocrinology research work.

Abstract Information: Oral / Poster Presentation Guidelines

Oral Presentations are generally split into TWO categories, as follows:

1. Plenary Lectures

- ◆ Each Plenary lecture is 25 minutes in length and comprises one presentation. We recommend you plan to present for approximately 20 minutes with 5 minutes for questions/discussion.
- ◆ Where Plenary Lectures are presented as debates, each of two speakers should plan to present for 20 minutes, allowing five minutes for closing questions and conclusions. We recommend that invited speakers communicate in advance of the Moderator so that presentations may be coordinated.

2. Oral Sessions

- ◆ Each Oral Session is 60 minutes in length and comprises two presentations, of 30 minutes each. We recommend that you plan to present for approximately 15 minutes, allowing time for questions/discussion at the end of the presentation.

Please prepare you presentation in 16:9 format (screen are in format 16:9). We recommend you to save your PowerPoint presentation using PPT(X) format instead of PPS.

A technician is available in every session room to provide assistance when needed. Due to the online presentation system, all speakers are kindly requested to use provided PC onsite. Please be present in the session room 15 minutes prior the start of your session and follow the instructions from the Chairs and/or technician. During your presentation a remote control will be available for controlling your presentation. Please observe the time allotted to you as you will not be permitted to speak for longer time. At the end of the Congress, all presentations will be deleted from the presentation system and computers on-site.

Speaker Preview Room

All speakers are asked to upload their presentation at the Speaker Preview Room (located in the Registration area) at least one hour before the beginning of the session or the day before in case of a morning session.

Speaker Guidelines

1 Language

- ❖ Presentations as well as all audio visual material should be presented in English (slides, DVDs).

2 General instructions

- ❖ All presentations are held in Microsoft PowerPoint on a PC running Windows.
- ❖ If you are using other than Microsoft Power point on a PC running Windows (example : Open Office, Power point for Mac, Keynote), please make sure your presentation is converted to Microsoft Power point for Windows PCs before you travel to the Congress (preferably by trying the converted presentation on a Windows PC).
- ❖ Presentations in Acrobat PDF format or Word format are not accepted.
- ❖ Speakers are kindly requested to respect the allotted time to guarantee a smooth running of the sessions.
- ❖ Computer projection will be available. Neither slide (35mm) projections nor personal laptops (MAC and PC) will be used in the congress rooms. A single computerized system will manage all projections and will send the presentations to the assigned Congress rooms automatically. This method guarantees an easier management, a higher quality of projection and a quicker and smoother running of the presentations. The use of personal laptops (MAC and PC) for presentations will not be allowed.
- ❖ In the Speakers Preview Room, a technician will be present to help the speaker to transfer his or her presentation into the central congress network. When the transfer is complete, the technician performs a quick run of the presentation with the speaker to check whether the presentation runs correctly and all parts of the presentation are copied. Desktop computers will be available at the speaker's secretariat for last minute changes and review of presentation.
- ❖ No more changes can be made inside the session rooms where the session takes place
- ❖ In each presentation room, a technical assistant starts each presentation at the right time using the computer connected to the central congress network. When the presentation is launched, the speaker has control and can navigate with a remote device.

3 Technical instructions

- ❖ During the congress, presentations will run on PowerPoint 2010 with a resolution of 1024 x 768 pixels.
- ❖ Your presentation should be prepared in PowerPoint 2003, 2007 or 2010.
- ❖ Preferred page setup is landscape orientation with high-contrast lettering and readable fonts (minimum font size = 24)
- ❖ Use high-contrast colours: light text on dark background or vice versa
- ❖ A maximum of 7 lines / slide and 5 words / line will improve the communication value of your slide.
- ❖ PowerPoint presentations on USB memory stick (preferred medium) disk or CD Rom must be delivered at the Speaker Preview Room at least two hours before the beginning of the session.

4 Suggestions to improve a PowerPoint presentation

- ❖ In general: the smaller your PowerPoint presentation (in size) the easier to handle it.
- ❖ Any movie/image file must be in the same folder of the Power Point presentation and must be copied in the folder before including in the presentation. (1) Alternatively use "Pack and go" or "Package to CD/DVD/USB" in PowerPoint. For ease of possible assistance, if there is a problem with your movies (not playing on standard machines

because codecs under which the movie was recorded are unknown and uninstalled on standard machines) we recommend not to use the new feature in PowerPoint 2010 to EMBED the movies inside your presentation. We advise to LINK to the movie file.

- ✦ We suggest putting maximum one movie per slide.
- ✦ The following media are recommended to facilitate the presentation download at the Slide Centre: USB memory sticks (preferred medium), CD-ROMs and DVD. It is also possible to download the presentation from a personal laptop at the Slide Centre, provided that the speaker stops at the Slide Centre at least two hours before the beginning of the session.
- ✦ Only single projection is available in the congress rooms, as the Organizer does not foresee the double projection.
- ✦ Transitions
 - ✦ Please do not use timer controlled transitions. Timer controlled transitions are transitions that will switch to the next slide after x seconds or minutes. This will interfere with our cue light system and confuse you during your talk.
- ✦ Pictures
 - ✦ Do NOT save the picture as BMP or TIFF (size is too big).
 - ✦ Images with .gif and .jpg extensions are recommended to obtain a light presentation (other kinds of extensions -recognizable by Power Point -will be accepted all the same).
 - ✦ Save the pictures used in your presentation on your CD, DVD or USB-stick (In case of problems we can re-insert the original).
- ✦ Video
 - ✦ Movies must not exceed 50 MB each (50 mb is not necessary the limit, we can handle larger movies without any problems but the video may not show up smoothly). Always bring your movies in DVD or other support, and inform the technicians at the Slide Centre the day before the presentation.
 - ✦ MPG (MPEG), WMV or AVI are the only acceptable video formats.

Poster Guidelines

The poster exhibition will be an integral part of Bacteriology Asia Pacific 2017.

The poster exhibition will be located on the exhibition area of the congress centre. The area will be clearly signposted from the registration area.

Technical Instructions:

- ✦ Posters must be prepared in Portrait style.
- ✦ Please DO NOT prepare a landscape poster
- ✦ The dimensions should be 100 cm high by 70 cm wide
- ✦ Posters should be attached to the boards with stickers, which you will be supplied to the organizers.
- ✦ Poster session schedule Posters will be displayed and presented in session.

Please plan to be at your poster and available to answer questions from delegates at the time of your assigned poster session. Posters will be displayed according to the POSTER numbers given by the organizers and will be grouped by sub topic.

About Bangkok

The City of Angels or “Krungthep” in Thai, is the capital city of Thailand. Bangkok is the hub for most of the commercial and economical activities of the Kingdom. At the same time, the City is very famous and appreciated by visitors for its versatility and multiple points of interests.

Bangkok ranks Asia’s Number One tourist destination and Number Two in the world after London with the visits and overnight stays of 18.24 million foreign tourists, according to MasterCard Global Destination Cities Index 2015. Bangkok is the hub for most of the commercial and economical activities of the Kingdom. At the same time, the City is very famous and appreciated by visitors for its versatility and multiple points of interests. From temples, the Grand Palace, all the way over the some of Asia’s largest shopping centers and the largest outdoor market of Asia (Chatuchak), Bangkok definitely has what it takes to entertain visitors from all origins, either first time or return travelers. Whilst Taxi fares are very reasonable, most of the sightseeing can comfortably be reached by Skytrain (BTS) or Underground train (MRT). Aside of the sightseeing and shopping, Bangkok has developed into a magnet for food lovers of all origins. The same range of choice applies to the accommodation options all over town, from high end international chain hotels to family run guest houses, demands of all travellers are met. In terms of wellness and relaxation – Bangkok has recently seen a huge development of city Spas and Wellness centers, in addition to the long established Thai massage centers.
