SPONSORSHIP OPPORTUNITIES

3rd International Conference on
Herbal & Traditional Medicine
April 27-28, 2020 | Dubai, UAE

our DELEGATE is your CLIENT
Our programme aims to bridge the gap between basic and technological science, emphasis on innovative practices, researchers and technologies in the fields of Herbal Medicine, Traditional Medicine, Herbal Therapies, Ayurveda, Naturopathy and Homeopathy and many more.

We foster discussion and debate of the innovations by maximizing interactions, collaborations and networking opportunities for researchers and clinicians from academia, industry, and healthcare professionals.
Dubai is one of the seven Emirates that joined together in 1971 to form the United Arab Emirates (UAE). The other members are Abu Dhabi, Ajman, Fujairah, Ras Al Khaimah, Sharjah and Umm Al Quwain (each Emirate is named after its main city). Favourable business conditions and shrewd investment decisions have led to Dubai becoming one of the Gulf’s most successful and rapidly expanding economic environments and Dubai is now firmly established as the business, financial and commercial hub of the region. It is a prosperous and diverse market and the employment growth required to match its expansion provides excellent opportunities for both clients and candidates. Indeed, Dubai has the fastest growing population in the world and is home to an exciting, diverse, multi-cultural blend of young, dynamic, professional people all enjoying the unrivalled quality of life the Emirate has to offer. People are drawn to the City as much for lifestyle reasons as for the outstanding employment prospects on offer.

Having extended along the two banks of the Creek, Dubai’s focal business region is isolated into two sections - Deira on the northern side and Bur Dubai toward the south - associated by a passage and two extensions. Every ha a lot of fine mosques and occupied souks, of open structures, shopping centers, inns, office towers, banks, doctor’s facilities, schools, condos and manors.

Outside this center, the city reaches out to the neighboring emirate of Sharjah toward the north, while broadening south and west in a long lace of advancement nearby the Gulf, through the areas of Satwa, Jumeirah and Umm Suqeim to new Dubai.
Exhibitors and sponsors have the opportunity for face-to-face networking with leading scientists and clinicians, increase brand awareness, and develop collaborations with an international audience.

In 2018-2019, the top ten countries represented by our delegates were: United States, United Kingdom, Germany, Netherlands, Belgium, Sweden, Canada, France, Switzerland, Japan and Spain.
