Invitation

Dear Colleagues,

Conference Series LLC LTD., is delighted to welcome you to Tokyo, Japan for the Prestigious **World Congress on Histopathology**. Histopathology 2019 will focus on “**Emphasizing the practical approaches in Histopathology**”. This international meet (Histopathology 2019) anticipates hundreds of delegates including keynote speakers, Oral presentations by renowned speakers and poster presentations by students besides delegates around the world. This conference perhaps a giant event that creates an ideal platform to share expertise addressing current advancements involved in Pathology and Histopathology. It will be a wonderful opportunity for all the delegates as it provides an international networking opportunity to collaborate with the world class Pathology associations. We look forward to see you at Tokyo, Japan.

With Regards,

Histopathology 2019

Venue

Tokyo, Japan

Accommodation

A large number of rooms have been reserved. Discounted room rates for Histopathology 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Cancer Science & Therapies.

About Tokyo, Japan

Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo each governed as an individual city, which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world’s most populous metropolitan area with upwards of 37.8 million people and the world’s largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world.
