# ABOUT US

## Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

## Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

## Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

## Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

# ABOUT CONFERENCES

- Palliative Care and non-malignant Diseases
- Palliative Care in Symptom Management
- Palliative Care and Rehabilitation Medicine
- Palliative Care and Occupational Therapy
- Palliative Care and Spiritual Care
- Palliative Care and Emergency Medicine
- Palliative Care Nursing
- Palliative Care in Oncology
- Palliative Care in Pain Management
- Palliative Care and Health Issues
- Hospice and Palliative Care
- Palliative Care in Geriatrics
- Palliative Care in Assisted Dying
- Palliative Care and End of life Care

## About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

# ABOUT BRUSSELS

The Brussels-Capital Region is located in the central portion of the country and is a part of both the French Community of Belgium and the Flemish Community, but is separate from the Flemish Region (which forms an enclave) and the Walloon Region. Brussels is the most densely populated and the richest region in Belgium in terms of GDP per capita. It covers 162 km<sup>2</sup> (63 sq. mi), a relatively small area compared to the two other regions, and has a population of over 1.2 million. The metropolitan area of Brussels comprises over 2.5 million people, which makes it the largest in Belgium.

Brussels lies in the north-central part of Belgium, about 110 kilometers (68 miles) from the Belgian coast and about 180 km (110 mi) from Belgium's southern tip. It is located in the heartland of the Brabantian Plateau, about 45 km (28 mi) south of Antwerp (Flanders), and 50 km (31 mi) north of Charleroi (Wallonia). Its average elevation is 57 meters (187 feet) above sea level, varying from a low point in the valley of the almost completely covered Senne, which cuts the region from east to west, up to high points in the Sonian Forest, on its southeastern side. In addition to the Senne, tributary streams such as the Maalbeek and the Woluwe, to the east of the region, account for significant elevation differences. Brussels' central boulevards are 15 meters (49 feet) above sea level. The highest point lies at a height of about 108 meters (354 feet), near the Place de l'Altitude Cent/Hoogte Honderdplein, in Forest. Brussels experiences an oceanic climate (Köppen: Cfb). Proximity to coastal areas influences the area's climate by sending marine air masses from the Atlantic Ocean. Nearby wetlands also ensure a maritime temperate climate. On average (based on measurements over the last 100 years), there are approximately 200 days of rain per year in the Brussels-Capital Region, one of the highest totals for any European capital. Snowfall is infrequent, averaging 24 days per year. The city also often experiences violent thunderstorms in summer months.

## IMPORTANT DATES

Abstract Submission Opens: **February 10, 2020**  
Registration Opens: **February 10, 2020**  
On Spot Registration: **October 21, 2020**
