### Networking & Refreshment Break

### Featured Speaker Presentations

- **Title:** Maternal Immunizations: Protects Mother, Fetus and Newborn Infant  
  
  **Speaker:** Michael Brady, Nationwide Children's Hospital, USA

- **Title:** Student Nurses, stigma and infectious diseases: A mixed methods study.  
  
  **Speaker:** Nichola Ashby, RGN The University of Nottingham, United Kingdom

- **Title:** Roles and mechanisms of DAMPs in sepsis  
  
  **Speaker:** Guozheng Wang, University of Liverpool, Liverpool, UK

- **Title:** Analysis of blood microbiome by highly sensitive 16S Metagenomic Sequencing: a new tool for diagnosis.  
  
  **Speaker:** Benjamin Lelouvier, Vaiomer, Labège, France

- **Title:** Varicella-Zoster Virus Tissue Tropisms and Neuroattenuated Vaccine Development  
  
  **Speaker:** Hua Zhu, Rutgers New Jersey Medical School, USA

- **Title:** In vivo; in vitro interaction of silver nanoparticles with leucine aminopeptidase from human and Plasmodium falciparum.  
  
  **Speaker:** Chris Whiteley, Rhodes University, Grahamstown, South Africa

- **Title:** HIV care continuum outcomes: does Ethiopia meet the UNAIDS 90-90-90 targets?  
  
  **Speaker:** Gesessew Hailay, Flinders University, Australia

- **Title:** Toxic Shock Syndrome due to Streptococcus pyogenes in an 80-year-old post-Knee Arthroplasty Patient: A Case Report  
  
  **Speaker:** Jenny Mae A. Quinivista-Yoon, St. Luke's Medical Center-Global City, Philippines

### Speaker slots Available

- **Title:** Correlation of Lyme Disease with Immune Dysfunction  
  
  **Speaker:** Harpal S. Mangat, Howard College of Medicine, Washington DC, USA

- **Title:** Baofukang suppository promotes the repair of vaginal epithelial cells in response to Candida albicans  
  
  **Speaker:** Ting Li, Peking University First Hospital, China

- **Title:** Socio-economic determinants of malaria transmission risk in KwaZulu-Natal, South Africa: a Bayesian inference approach.  
  
  **Speaker:** Osadolor Ebhuoma, University of KwaZulu-Natal, Westville Campus, South Africa

- **Title:** Incidence and characterization of multi-drug resistance Acinetobacter baumannii  
  
  **Speaker:** Mohammad Al-Tamimi, Hashemite University, Zarqa, Jordan

- **Title:** A study of the interaction mechanism of GTP with CodY of Bacillus anthracis  
  
  **Speaker:** Shikha Joon, Jawaharlal Nehru University, New Delhi, India

Award Ceremony

Speaker slots Available
Conference Highlights

- Infectious Diseases
- Causes and Symptoms of Infectious Diseases
- Global Trends in Emerging Infectious Diseases
- Microbial Pathogenesis and Virulence
- Immunology of Infections
- Mechanism of Resistance
- Antimicrobial/ Antibiotic/ Antibacterial Resistance
- Antimicrobial/ Antibiotic/ Antibacterial Stewardship
- Epidemiology of Emerging and Re-Emerging Infectious Diseases
- Diagnosis of Infectious Diseases
- Treatment for Infectious Diseases
- Infectious Diseases Prevention, Control and Cure
- Antimicrobials/ Antibiotics/ Antibacterials
- Vaccines and Vaccination
- Infectious Diseases Vaccines
- Sexually Transmitted Diseases/ Sexually Transmitted Infections
- Pediatric Infectious Diseases/ Childhood Infectious Diseases
- Neuro Infectious Diseases
- Nosocomial Infections/ Hospital Acquired Infections/ Health Care Associated Infections
- Blood Stream Infections/ Bacteraemia/ Septicaemia/ Blood Poisoning
- Ebola and Zika Viral Infections
- Urinary Tract Infections
- Surgical Site Infections
- Sepsis/ Septicaemia
- Tuberculosis
- Hepatitis
- Malaria
- Microbial Forensics and Molecular Basis of Bacteria
- Animal Infectious Diseases/ Zoonosis
- Plant Disease Modelling and Parameter Estimation

Plan your Trip to San Francisco
About San Francisco

San Francisco officially the City and County of San Francisco is the cultural, commercial, financial centre of Northern California and the only consolidated city-county in California. San Francisco is a popular international tourist destination renowned for its chilly summer fog, steep rolling hills, eclectic mix of Victorian and modern architecture and its famous landmarks, including the Golden Gate Bridge, cable cars, and Chinatown. The city is also a principal banking and finance centre and the home to more than 30 international financial institutions. San Francisco is unique in that a few of its parks and nearly all of its beaches within city limits form part of the regional Golden Gate National Recreation Area which is one of the most visited units of the National Park system in the USA with over 13 million visitors a year. It is also one of the largest urban parks in the world. The beaches and parks that form the Golden Gate National Recreation Area in San Francisco include Ocean Beach that runs along the Pacific Ocean shoreline and is frequented by a vibrant surfing community; Baker Beach which is located in a cove west of the Golden Gate and part of the former military base, the Presidio. Within the Presidio is Crissy Field, a former airfield that was restored to its natural salt marsh ecosystem. The GGNRA also administers Fort Funston, Lands End, Fort Mason and Alcatraz. The National Park Service also separately administers the San Francisco Maritime National Historical Park, a fleet of historic ships and waterfront property around Aquatic Park. It has several nicknames like “The City by the Bay”, “Fog City”, “San Fran”, “Frisco”, “The City that Knows How”, “Baghdad by the Bay” and “The Paris of the West”
