

6th Annual Meeting on
**Infectious Diseases, Microbiology
& Beneficial Microbes**

June 24-25, 2025 | Paris, France

Conference Series LLC Ltd
35 Ruddlesway, Windsor, Berkshire, SL4 5SF, UK
For Queries: +44-2045861247

Day 1 | June 24, 2025

09:00-09:15	Registrations & Introduction
09:15-09:30	Opening Ceremony
Keynote Forum	
09:30-10:15	Title: Antimicrobial Resistance: A Global Threat and New Approaches to Combat It Dr. Emily Cooper, Department of Microbiology and Infectious Diseases
10:15-11:00	Title: Microbial Interactions in the Gut: The Role of Beneficial Microbes in Health Dr. Jason Wright, Department of Microbiology, University of California
Group Photo 11:00-11:05	
Panel Discussion	Networking & Refreshment Break 11:05-11:20
11:20-12:05	Title: Emerging Infectious Diseases: Predicting and Controlling Future Outbreaks Dr. Maria Alvarez, Department of Epidemiology and Infectious Diseases, University of Oxford
Workshop	
12:05-13:05	Title: CRISPR-Cas Systems: Revolutionizing Microbial Genomics and Infection Control Dr. Kevin Patel, Department of Genetics and Microbiology, Massachusetts Institute of Technology
Panel Discussion	Lunch Break 13:05-14:05
14:05-14:35	Title: Vaccines Against Viral Infections: New Developments in mRNA Technology Dr. Aisha Khan, Department of Immunology, University of Toronto
14:35-15:05	*** Slots Available***
15:05-15:35	Title: The Role of the Microbiome in Infectious Disease Susceptibility Dr. Sophie Bennett, Department of Microbiome Research, University of Melbourne
15:35-16:05	*** Slots Available***
Panel Discussion	Networking & Refreshment 16:05-16:20
Young Researchers Forum	
16:05-16:35	Title: Antiviral Therapies: Targeting Viral Replication and Host-Pathogen Interactions Dr. Robert Lee, Department of Infectious Diseases
16:35-17:05	*** Slots Available***

Day 2 | June 25, 2025

09:30-10:15	Title: Beneficial Microbes in Agriculture: Enhancing Crop Growth and Disease Resistance Dr. Elena Garcia, Department of Microbiology and Biotechnology, Wageningen University.
10:15-11:00	Title: Zoonotic Diseases: Understanding the Link Between Wildlife and Human Infections Dr. Peter Zhang, Department of Zoonotic Diseases, University of Hong Kong
Panel Discussion	Networking & Refreshment Break 11:05-11:20
Sessions	Title: Microbes and Mental Health: The Gut-Brain Axis and Infectious Diseases Dr. Linda Morris, Department of Neuroscience and Microbiology, University of Edinburgh
11:20-12:05	Title: Antimicrobial Peptides: Natural Defenses Against Bacterial Infections Dr. Rajesh Gupta, Department of Biochemistry and Microbiology, University of Delhi
12:05-13:05	***Slots Available***
Panel Discussion	Lunch Break 13:05-14:05
14:05-14:35	Title: Probiotics and Their Role in Preventing and Treating Infections Dr. Anne Dupont, Department of Microbiology and Immunology, University of Paris
14:35-15:05	***Slots Available***
15:05-15:35	***Slots Available***
Poster Presentations 15:35-16:05	
Poster Judge	Title: Ashley R Cosentino, USA
PP01	Title: Antimicrobial Resistance in Developing Countries: A Global Health Perspective Dr. Ahmed Al-Mansoori, Department of Infectious Diseases, Cairo University
PP02	***Slots Available***
PP03	***Slots Available***
Video Presentations	
16:05-16:35	Title: The Role of Mycorrhizal Fungi in Enhancing Plant Immunity Against Pathogens Dr. Olivia Carter, Department of Plant Microbiology, University of Pretoria
16:35-17:05	***Slots Available***
Closing Ceremony and Awards
