Accommodation

A large number of rooms have been reserved. Discounted room rates for Infectious Diseases Meet 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Infectious Diseases.

About Tokyo

Japan is the second largest Life science market in the world after USA, Occupying about 10% of Market in each of the global drug and Medical devices market. According to Data monitor, the Japanese biotechnology market had total revenue of $ 43.3 Billion in 2013. By 2017, the market is expected to grow to $ 53.8 Billion. The Japanese pharmaceutical market is the world’s second-largest, with 2013 sales estimated at $115 billion. Japan accounts for a little less than 10 percent of the global Pharma market, compared with 38.4 percent for the U.S. and 20.7 percent for Western Europe. The Japanese market is a promising region for proteomics companies, as a high amount of proteomics research is being conducted in the country.
