

Influenza 2018 Report

Influenza 2018: Past Conference Report

With the glorious success of the previous conference, Conference Series LLC Ltd hosted **4th International Conference on Influenza and Zoonotic Diseases** (Influenza 2018) during **July 02-03, 2018** at **Vienna, Austria**. The conference was marked with the attendance of Editorial Board Members of supported Conference Series LLC Ltd journals, Scientists, young and brilliant Researchers, Business Delegates and talented Student communities representing more than 20 countries, who made this conference fruitful and productive. This conference was based on the theme, “*New approaches to outbreak surveillance of Influenza and Zoonotic diseases*” which included the following scientific tracks:

- **Influenza Outbreaks**
- **Current and Novel Approach for Influenza vaccines**
- **Influenza Vaccines and Vaccination**
- **Pathogenesis of Influenza Virus**
- **Influenza Viruses -Advance in Detection & Differentiation**
- **Epidemic Influenza**
- **Zoonotic Diseases: Global Infectious Disease Burden**
- **Tracking and Preventing Zoonotic Infectious diseases**
- **Influenza and other Respiratory Tract Infection Therapy**
- **Epidemiology of Zoonotic Influenza**
- **Evolution and Epidemiological Aspects of Influenza and Zoonotic Diseases**
- **Antiviral treatment for flu and public health policy**

We are thankful to our **Honourable Guest** for their generous support and suggestions:

Dr Jaroslav Turanek, Veterinary Research Institute, Czech Republic

The conference proceedings were carried out through various scientific-sessions and plenary lectures, of which the following topics were highlighted as **Keynote presentations**:

“Development of retargeted ohsv vectors for systemic treatment of breast cancer” given by **Joseph C. Glorioso**, University of Pittsburgh, USA

“The quest for durable plant disease resistance” delivered by **John A Walsh**, University of Warwick, UK.

Deciphering the information coded by the functional rna domains of the hepatitis c virus genome” delivered by **Alfredo Berzal-Herranz**, Institute of Parasitology and Biomedicine, Spain

“Noninvasive mucosal vaccination: Recombinant and mRNA vaccine formulation, delivery systems and molecular adjuvants” rendered by **Jaroslav Turanek**, Veterinary Research Institute, Czech Republic.

“Viral epitranscriptomics”, given by **Bryan R Cullen**, Duke University Medical Center, USA

“Targeting herpesvirus ribonucleoprotein particle assembly: A novel antiviral strategy”, given by **Adrian Whitehouse**, University of Leeds, United Kingdom.

“Bioinformatic approaches to Infectious Disease”, delivered by **Taijiao Jiang**, Institute of Basic Medical Sciences-CAMS, China

Conference Sessions Chair:

Joseph C. Glorioso, University of Pittsburgh, USA

Bryan R. Cullen, Duke University Medical Center, USA

Vsevolod A. Zinserling, Saint-Petersburg University, Russia

Conference Series LLC Ltd has taken the privilege of felicitating **Influenza 2018** Organizing Committee, Editorial Board Members and Keynote Speakers who supported for the success of this event. The esteemed guests, keynote speakers, well-known researchers and delegates shared their innovative research and vast experience through their fabulous presentations at the podium of grand **Influenza 2018**. We are glad to inform that all accepted abstracts for the conference have been published in Conference Series LLC *Journal of Virology & Mycology*.

We are also obliged to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. We sincerely thank the Organizing Committee Members for their gracious presence, support and assistance. With the unique feedback from the event, Conference Series LLC Ltd would like to announce the commencement of the “**5th International Conference on Influenza and Zoonotic Diseases**” to be held during **June 17-18, 2019** at **Rome, Italy**
