NOTE: Program Schedule is subject to change with final allotment of the speaker slots
Major Scientific Sessions

- Internal Medicine and Primary Care
- Internal Medicine and Hospital Medicine
- Internal Medicine and Critical Care
- Internal Medicine and Treatment Strategies
- Internal Medicine and Epidemiology
- Internal Medicine and Adult Diseases
- Internal Medicine and Infectious Disease
- Internal Medicine and Diagnosis
- Internal Medicine and Gynecology
- Case Reports and Case Studies in Internal Medicine
- Internal Medicine and Cancer
- Internal Medicine and Adult Immunization or Vaccination
- Internal Medicine and Healthcare
- Internal Medicine and Adolescent Medicine
- Internal Medicine and Geriatrics
- Internal Medicine and Sleep Medicine
- Internal Medicine and Pediatrics
- Internal Medicine and Sports Medicine
- Primary care Psychology
- Internal Medicine and Multi System Disease Process
- Internal Medicine and Clinical Pharmacist
- Internal Medicine and Telemedicine

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student’s enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

General Queries
internalmedicine@conferenceseries.net
Dallas is a major city in the state of Texas and is the largest urban center of the fourth most populous metropolitan area in the United States. The city proper ranks ninth in the U.S. and third in Texas after Houston and San Antonio. The city’s prominence arose from its historical importance as a center for the oil and cotton industries, and its position along numerous railroad lines. The bulk of the city is in Dallas County, of which it is the county seat; however, sections of the city are located in Collin, Denton, Kaufman, and Rockwall counties. According to the 2010 United States Census the city had a population of 1,197,816. The United States Census Bureau’s estimate for the city’s population increased to 1,300,092 as of July 1, 2015.

The city is the largest economic center of the 12-county Dallas–Fort Worth–Arlington metropolitan area (commonly referred to as DFW), which had a population of 7,102,796 as of July 1, 2015, representing growth in excess of 676,000 people since the 2010 census. In 2014, the metropolitan economy surpassed Washington, DC to become the fifth largest in the United States, with a 2014 real GDP over $504 billion. In 2013, Dallas was rated as a “beta plus” world city by the Globalization and World Cities Study Group & Network and was 14th in world rankings of GDP by the Organisation for Economic Co-operation and Development.

Located in North Texas, Dallas is the main core of the largest metropolitan area in the South and the largest inland metropolitan area in the United States that lacks any navigable link to the sea. Dallas and nearby Fort Worth were developed due to the construction of major railroad lines through the area allowing access to cotton, cattle, and later oil in North and East Texas. The construction of Dallas/Fort Worth International Airport, one of the largest and busiest airports in the world.
Tourist Attractions in Dallas, USA
**Keynote Forum**

**Title: Obesity management - A global challenge**
*Flavio Adsuara Cadegiani*, University of Sao Paulo, Brazil

---

**Symposium: Multidisciplinary Approaches to Complications of Diabetes Mellitus**

**Title: Challenges in controlling complicated diabetics**
*Tamis Bright*, Texas Tech University Health Sciences Center, USA

**Title: Diabetic nephropathy: A multiprong approach**
*Pedro Blandon*, Texas Tech University Health Sciences Center, USA

**Title: Diabetic Neuropathy**
*Paisith Piriyawat*, Texas Tech University Health Sciences Center, USA

**Title: New perspectives in the diagnosis and treatment of diabetic gastroparesis**
*Irene Sarosiek*, Texas Tech University Health Sciences Center, USA

**Major Sessions:**
- Internal Medicine and Primary care
- Internal Medicine and Critical care
- Internal Medicine and Diagnosis
- Internal Medicine and Multi System Disease Process
- Internal Medicine and Adult disease

**Session Chair:** Irene Sarosiek, Texas Tech University Health Sciences Center, USA

**Session Co-chair:** Tamis Bright, Tamis Bright Texas Tech University Health Sciences Center, USA

---

**Title: Critical care neurocardiology**
*S Manimala Rao*, Yashoda Hospitals, India

**Title: Dysnatremia in intensive care**
*Khalil Ahmad*, Rashid Hospital, UAE

**Title: Diagnosis and management of acute kidney injury in intensive care**
*Khalil Ahmad*, Rashid Hospital, UAE

**Title: Heart failure: What everyone has to know**
*Seemin Afshan Shiraz*, Medeor 24x7 Hospital, UAE

**Title: Don’t cry for me radiographia: Plain abdominal radiographs for non-traumatic acute abdominal pain**
*Mohamed Elmutasim Abd El Bagi*, King Abdulaziz Medical City, KSA

---
Keynote Forum

Title: Update on atrial fibrillation
Seemin Afshan Shiraz, Medeor 24x7 Hospital, UAE

Networking and Refreshment Break @ FOYER

Major Sessions:
- Case Reports and Case Studies in Internal Medicine
- Internal Medicine and Treatment Strategies
- Internal Medicine and Infectious disease
- Internal Medicine and Diagnosis
- Internal Medicine and Gynecology
- Internal Medicine and Sports Medicine
- Internal Medicine and Epidemiology
- Internal Medicine and Cancer
- Internal Medicine and Geriatrics

Session Chair: Irene Sarosiek, Texas Tech University Health Sciences Center, USA
Session Co-chair: Paisith Piriyawat, Texas Tech University Health Sciences Center, USA

Session Introduction

Title: Comparative secretomics reveals wound environment acidification-associated secretome and novel microbial virulence factors for group A Streptococcus pyogenes infection
Pao-Chi Liao, National Cheng Kung University, Taiwan

Title: Neil Armstrong syndrome and impaired thermoregulation
William J Rowe, Medical University of Ohio at Toledo, USA

Title: Kidney injury molecule-1 (kim-1) as an early marker for acute kidney injury in critically ill patients
Kareem Salah, Menoufia University, Egypt

Workshop

Title: What to do when I don't have a diagnosis?
Seemin Afshan Shiraz, Medeor 24x7 Hospital, UAE

Lunch Break @ TIBURON

Title: What to do when I don't have a diagnosis?
Seemin Afshan Shiraz, Medeor 24x7 Hospital, UAE

Video Presentation

Title: Familial hypercholesterolemia. From experiences of lipid clinic to the international network
Richard Ceska, General University Hospital Prague, Czech Republic

Poster Presentation & Networking and Refreshment Break
