

Materials Chemisty 2021

August 24, 2021

Materials Chemistry 2021

Theme : Discovering the Challenges in Material Chemistry and Advancements

UK- 10:00 | India-14:30 | Saudi Arabia- 13:00 | Brazil- 06:00 | USA- 05:00

Sessions : Polymer & Analytical Chemistry | Molecular Modeling & Nanotechnology | Chemical Education & Chemical Engineering | Material Science & Inorganic Chemistry | Smart Materials

10:00-10:30

Title: Design, synthesis, and characterization of carbon-based nanocomposites with conducting polymers /metal oxides and their application

Amjad Mumtaz Khan, Aligarh Muslim University, India

10:30-11:00

Title: Dual Material Structure on Every Cosmic Level

Dénes Joó, University of Architecture and Urbanism in Bucharest, Romania
