City Attractions

Venue

Manila, the capital of the Philippines, is a densely populated bayside city on the island of Luzon, which mixes Spanish colonial architecture with modern skyscrapers. Intramuros, a walled city in colonial times, is the heart of Old Manila. It's home to the baroque 16th-century San Agustin Church as well as Fort Santiago, a storied citadel and former military prison.

Intramuros, a walled city in colonial times, is the heart of Old Manila. Manila occupies the low, narrow deltaic plain of the Pasig River, which flows northwestward to Manila Bay. The swampy delta of the southward-flowing Pampanga River lies to the north of the city. Immediately to the northeast and east of the urban region lies a stretch of lowlands, beyond which rise the peaks of the southern range of the Sierra Madre.
