Welcome Message

Dear Friends and Colleagues,

It is a great pleasure and an honor to extend to you a warm invitation to attend the 5th International Conference on Medical Informatics & Telemedicine, to be held in Prague, Czech Republic during August 31-01 September, 2017.

The theme of the conference is “Intersecting healthcare and technology to improve lives of Patients” which will cover all the areas to review the tangible, proven and action-enriching methodology for making sense of the questionable imperative throughout healthcare today to “do it because everyone else is.”

Electronic patient records (EPRs) are proliferating globally. Yet proof of well-balanced benefits remains unjustifiably rare. This lack of substantiation is arguably unconscionable, hence the root of continued frustration, discomfort and dissatisfaction.

It is my privilege to share a list of examples substantiating EPR-enabled benefits. Proven benefits include more efficacious clinical outcomes, reduced costs, optimised efficiencies and user satisfaction. The replicable examples provide substantiation of benefit-rich impacts throughout a list of clinical specialists, delivery settings and models throughout the globe.

The mission and purpose of healthcare must remain optimisation of care to restore or enhance the health and wellbeing of individuals and populations. Yet always within increasing cost-conscious limitations along with needed smoothness of process steps and staging. These case studies illustrate how undertakings for EPR selection, implementation and even continuous improvement can and must be led by scientifically proven bases for decision-makers. We will review rationale and methodologies for developing optimal measurement criteria, analysing best data as evidence, interpreting findings, and continuously improving all thereafter.

The Conference will provide a wonderful forum for you to refresh your knowledge base and explore the innovations in Medical Informatics & Telemedicine. The Conference will also strive to offer plenty of networking opportunities, providing you with the opportunity to meet and interact with the leading scientists and researchers, friends and colleagues.

See you in Prague. Let's do this right.

Prof. Steven H. Shaha, PhD, DBA
Principal & CEO, Institute for Integrated Outcomes
Professor, Center for Public Policy & Administration, USA
Organizing Committee Members

Prague is the capital and biggest city of the Czech Republic. It is the fifteenth biggest city in the European Union. It is likewise the recorded capital of Bohemia. Arranged in the north-west of the nation on the Vltava waterway, the city is home to around 1.26 million individuals, while its bigger urban zone is assessed to have a populace of almost 2 million. The city has a mild atmosphere, with warm summers and cold winters. Prague has been a political, social, and monetary focal point of focal Europe with waxing and melting away fortunes amid its history.

Prague’s economy represents 25% of the Czech Republic’s GDP making it the most noteworthy performing territorial economy of the nation. As per the Eurostat, starting 2007, its GDP per capita in buying power standard is €42,800. Prague positioned the fifth best-performing European NUTS two-level locale at 172 percent of the EU-27 normal. It is a world social capital and it is the world’s most-gone to city as measured by universal entries. Right around one-portion of the national salary from tourism is spent in Prague. The city offers roughly 73,000 beds in settlement offices, the vast majority of which were worked after 1990, incorporating just about 51,000 beds in inns and motel. As indicated by the 2011 enumeration, around 14% of the city tenants were outsiders, the most elevated extent in the nation. Prague draws in more than 16 million global guests for each year making it Europe’s most gone by city making it Europe’s most gone by city. Prague pulls in 27 million overnight-stay guests consistently.

Keynote Forum

Introduction
Title: Artificial intelligence in medicine: Data science meets knowledge engineering
John Fox | Oxford University | UK
Title: Fetal well-being assessment in outpatient pregnant women using wearable devices
Filiberto Di Prospero | Di Prospero’s Obstetrics & Gynecologic Center | Italy

Major Sessions:
Biomedical Informatics | Imaging Informatics | Health Informatics | Clinical Informatics | Telemedicine | Nursing | Health Information Technology | Health System

Session Chair: John Fox | Oxford University | UK
Session Co-Chair: Filiberto Di Prospero | Di Prospero’s Obstetrics & Gynecologic Center | Italy

Title: Integrating informatics and technology in nursing residency program
Yuh-Fong Hong | The University of Texas | USA
Title: Case-based blended E-learning scenarios – Adequate for competence development or more?
Henriette Loeffler-Stastka | Medical University Vienna | Austria
Title: Atlas-based segmentation of temporal of bone anatomy
Kim Powell | The Ohio State University | USA

Lunch Break

Title: Teach one, do one, see one: App design for medical students
George Tolomiczenko | University of Southern California | USA
Title: Towards the design of a trusted storage platform for effective big data management in healthcare systems
Subrata Acharya | Towson University | USA

Networking and Refreshment Break

Title: Patient and physician perspectives on nutritional monitoring using a smartphone application for cancer outpatients
Jeroen S de Bruin | Medical University Vienna | Austria
Title: EMR-enabled improved clinical, cost and satisfaction outcomes for bedside caregivers
Steven H Shaha | Center for Public Policy & Administration | USA
## Keynote Forum

**Title:** Development and utility of the online priority health index  
**Eduardo J Simoes** | University of Missouri | USA

**Title:** A systematic review of ehealth interventions for healthy ageing  
**Marie-Pierre Gagnon** | Laval University | Canada
