

## Scientific Program

3rd World Congress on

# **MEDICINAL PLANTS AND** NATURAL PRODUCTS RESEARCH

October 02-03, 2017 Kuala Lumpur, Malaysia

### Conference Series

One Commerce Center-1201 Orange St. #600, Wilmington, Zip 19899, Delaware, USA Toll Free: 1-888-843-8169

Kemp House, 152 City Road London ECIV 2NX, United Kingdom Toll Free: +0-800-014-8923

17:40-18:10

### Bunga Kenanga

## conferenceseries.com 09:30-09:55 Opening Ceremony

	of the control of the
	Keynote Forum
09:55-10:00	Introduction
10.00.10.40	Title: STAT3 as a molecular target for cancer prevention and therapy
10:00-10:40	Gautam Sethi, National University of Singapore, Singapore
10:40-11:20	Title: Eco-phytochemistry of important medicinal and aromatic plants of Iran
	Mohammad Bagher Rezaee, Research Institute of Forests and Rangelands, Iran
	Group Photo
	Networking and Refreshments Break 11:20-11:40 @ Foyer
11:40-12:20	Title: Transport of natural bioactive compounds in human blood circulation
	Saad Tayyab, University of Malaya, Malaysia
	Session Introduction
	Sessions:
	Medicinal Plants   Phytochemical Analysis of Medicinal Plants   Natural Products Research   Medicinal Plants as Medicine   Natural Products Research
	Gautam Sethi, National University of Singapore, Singapore
Session Chair:	s Saad Tayyab, University of Malaya, Malaysia
12:20-12:50	Title: Co-administration of Gynura Procumbens aqueous extract and kelulut honey enhances the sperm
	quality and spermatogenesis of diabetic induced male rats
	Mahanem Mat Noor, Universiti Kebangsaan Malaysia, Malaysia
	Lunch Broak 12.50 @ Zondo Bostaurant
	Lunch Break 12:50-13:50 @ Zende Restaurant
13:50-14:20	Lunch Break 12:50-13:50 @ Zende Restaurant Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition
13:50-14:20	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid
	Title: The antiadipogenic effect of <i>Aster glehni</i> extract through HMG-CoA Reductase and fatty acid synthase inhibition
	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to
14:20-14:50	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae
	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India
14:20-14:50	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from
14:20-14:50 14:50-15:20	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from
14:20-14:50 14:50-15:20	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)
14:20-14:50 14:50-15:20	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia
14:20-14:50 14:50-15:20	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia
14:20-14:50 14:50-15:20 15:20-15:50	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia  Networking and Refreshments Break 15:50-16:10 @ Foyer  Title: Therapeutic effects of Lucilia sericata maggots and larval salivary secretion on cutaneous
14:20-14:50 14:50-15:20 15:20-15:50	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia  Networking and Refreshments Break 15:50-16:10 @ Foyer  Title: Therapeutic effects of Lucilia sericata maggots and larval salivary secretion on cutaneous leishmaniasis wounds and its causative agent (Leishmania major) using BALB/c mice as animal model
14:20-14:50 14:50-15:20 15:20-15:50	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia  Networking and Refreshments Break 15:50-16:10 @ Foyer  Title: Therapeutic effects of Lucilia sericata maggots and larval salivary secretion on cutaneous leishmaniasis wounds and its causative agent (Leishmania major) using BALB/c mice as animal model  Mohammad Saaid Dayer, Tarbiat Modares University, Iran
14:20-14:50 14:50-15:20 15:20-15:50 16:10-16:40 16:40-17:10	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia  Networking and Refreshments Break 15:50-16:10 @ Foyer  Title: Therapeutic effects of Lucilia sericata maggots and larval salivary secretion on cutaneous leishmaniasis wounds and its causative agent (Leishmania major) using BALB/c mice as animal model  Mohammad Saaid Dayer, Tarbiat Modares University, Iran  Title: Preparation and antibacterial activity of Triphala cream against multidrug-resistant wound pathogens
14:20-14:50 14:50-15:20 15:20-15:50	Title: The antiadipogenic effect of Aster glehni extract through HMG-CoA Reductase and fatty acid synthase inhibition  Hyunbeom Lee, Korea Institute of Science and Technology, Republic of Korea  Title: Comparative anti-angiogeneis activity of extracts of various parts of Indian dhak tree belonging to family Fabaceae  Madhavi Apte, SNDT University, India  Title: In vitro evaluation of anti-tumor activity of extracts of two wild-collected mushrooms  Kit L Chin, Southern University Agricultural Land Grant Campus, USA  Title: The novel bioactive compound of phenazine derivative produced by endophytic actinomycetes from Neesia altissima (Malvaceae)  Rina Hidayati Pratiwi, Universitas Indraprasta PGRI, Indonesia  Networking and Refreshments Break 15:50-16:10 @ Foyer  Title: Therapeutic effects of Lucilia sericata maggots and larval salivary secretion on cutaneous leishmaniasis wounds and its causative agent (Leishmania major) using BALB/c mice as animal model  Mohammad Saaid Dayer, Tarbiat Modares University, Iran  Title: Preparation and antibacterial activity of Triphala cream against multidrug-resistant wound pathogens  Manoraj Amirthasingam, University of Peradeniya, Sri Lanka

Wasif Nouman, Bahauddin Zakariya University, Pakistan

#### Day 2 October 03, 2017

#### Bunga Kenanga

#### **Keynote Forum**

Title: Study of variation of essential oil content and chemical composition of Anthemis wiedemanniana Fisch,

10:00-10:40 et Mey., at different phenological stages and natural habitats in West Azerbaijan (Iran)

Mohammad Bagher Rezaee, Research Institute of Forests and Rangelands, Iran

Title: Biological activities of essential oil and extracts from Mikania cordata (Burm.f.) Robinson: An analgesic,

10:40-11:20 anti-inflammatory and antipyretic evaluation

M Oliur Rahman, University of Dhaka, Bangladesh

Networking and Refreshments Break 11:20-11:40 @ Foyer

Session Introduction

#### **Sessions:**

#### Medicinal Plants as Anti-Cancer Drugs | Pharmacognosy | Medicinal Plants

Session Chair: Mohammad Bagher Rezaee, Research Institute of Forests and Rangelands, Iran

Title: Preparation and evaluation of ethosomal gel of *Mangifera indica* for wound healing activity in rats

P Sailaja Rao, Sri Venkateshwara College of Pharmacy, India

Title: Antileishmanial, cytotoxicity and metacaspase gene activities of green tea extract and Glucantime

12:10-12:40 alone or in combination against Leishmania tropica stages and their apoptotic and necrotic effects

Iraj Sharifi, Kerman University of Medical Sciences, Iran

#### Lunch Break 12:40-13:40 @ Zende Restaurant

Title: Chemical profile and inhibition of tumor cell growth of the anthocyanins of Roselle hibiscus (Hibiscus

13:40-14:10 sabdariffa L.)

Kit L Chin, Southern University Agricultural Land Grant Campus, USA

Title: Reversed-phase liquid chromatographic quantification of pyrethrin in the essential oil of wild Tanacetum

14:10-14:40 parthenium [Feverfew] from Northern Khorasan province (Iran)

Mohammad Saaid Dayer, Tarbiat Modares University, Iran

Title: Drought stress affects size but not nutritional quality, antioxidant system and composition of phenolic

14:40-15:10 acids of Moringa oleifera Leaves

Wasif Nouman, Bahauddin Zakariya University, Pakistan

Title: Evaluation of nephroprotective activity of methanolic extract of *Biophytum sensitivum* 

Sachin Chandavarkar, PES's Rajaram and Tarabai Bandekar College of Pharmacy, India

Networking Break 15:40-16:00

#### Young Researchers Forum

Title: Comparison between antibacterial effect of Teucrium polium plant and common antibiotics on the

16:00-16:20 bacteria causing urinary tract infections

Samira Shahba, Islamic Azad University, Iran

Title: Comparison of anxiolytic effects of the homeopathic complex Vita-C 15 in compared with Aconitum

16:20-16:40 napellus in the acutely stressed C57BL6 mice

Charis Liew Siaw Min, Cyberjaya University College of Medical Sciences, Malaysia

#### Poster Presentations @ 16:40-17:40

Title: In vitro antileishmanial activity of methanolic and aqueous extracts of Eucalyptus camaldulensis against

MPN001 Leishmania major

Iraj Sharifi, Kerman University of Medical Sciences, Iran

Title: In vitro biochemical evaluation of the antiplasmodial potential of extracts of Phyllantus nivosus leaf-A

MPN002 preliminary study

Titilayo Johnson, University of Jos, Nigeria

MPN003 Title: Evaluating the effect of Stachys lavandulifolia extract on the growth of Giardia lambia, in vitro

Aroona Chabra, Mazandaran University of Medical Sciences, Iran

MPN004 Title: Ureh nan ampek a dichotomy of equilibrium: Ethnopharmacology of Minangkabau

Tresno, Andalas University, Indonesia

#### Panel Discussion

#### **Awards & Closing Ceremony**
