About Hong Kong

Hong Kong lies in the southeast coast of china; it covers 426 square miles of area. It is one of the leading financial, banking and trading cities of the world. It has the world view of skyscrapers, glittering harbor and green filled hills and peaks. Hong Kong is full of atmospheric cafés and tea houses, food center, temples and lot more to explore. Hong Kong is located in eastern Asia. It borders the South China Sea to the south, west, and east, and shares a land border with mainland China to the north. It consists of 4 main areas: Hong Kong Island, Kowloon, the New Territories, and the Outlying Islands. Trade has been the heart of Hong Kong's economy. Agriculture is negligible as a source of employment or revenue and makes only a miniscule contribution to GDP (0.1 percent in 1998). The scarcity of arable land leaves very limited opportunity for agricultural activities. Hong Kong is heavily dependent on agricultural imports. Tourism is one of Hong Kong's most important service activities and is the third largest source of foreign exchange earnings. Places like Hong Kong Disneyland, Tian Tan Buddha Statue, Ocean Park Hong Kong, Clock Tower, Wong Tai Sin Temple, Victoria Peak and Avenue of starts will grab the visitor's attention. Hong Kong, officially the Hong Kong Special Administrative Region of the People's Republic of China, is an autonomous territory on the eastern side of the Pearl River estuary in South China. Along with Macau, Guangzhou, Shenzhen, Zhuhai, and several other major cities in Guangdong, the territory forms a core part of the Pearl River Delta metropolitan region, the most populated area in the world. With over 7.4 million Hongkongers of various nationalities in a territory of 1,104 square kilometers (426 sq mi), Hong Kong is the fourth-most densely populated region in the world. It is also "The city of angels, the great city, the residence of the Emerald Buddha, the impregnable city (of Ayutthaya) of God Indra, the grand capital of the world endowed with nine precious gems, the happy city, abounding in an enormous Royal Palace that resembles the heavenly abode where reigns the reincarnated god, a city given by Indra and built by Vishnukarn."
