

MOLECULAR BIOLOGY 2021

August 19, 2021

Molecular Biology 2021

Theme : Examine the Exploration & Impending Movements of Molecular Biology

UK- 11:00 | India-15:30 | Saudi Arabia- 14:00 | Brazil- 07:00 | USA- 06:00

Sessions : Next Generation DNA Sequencing | Molecular Biology | Cellular and Molecular Biology | Techniques of Molecular Biology | Enzymology in Molecular Biology

11:00-11:30

Title: Development of Pcr-Test for Bird and Mammal DNA identification based on 18S Ribosomal RNA

Irina Zyrianova, Institute for Innovative Biotechnologies in Animal Husbandry, Russian Federation

11:30-12:00

Title: The modulatory effect of Tyrosol nano-niosome on the expression of PEPCK & GCK genes responsible for glucose metabolism in diabetic rats

Nima Jafari Rastegar, IAUTMU,Iran

12:00-12:30

Title: Molecular cascade of cholinesterases expression in Alzheimer's brain

Renu Bist, University of Rajasthan, India
