**B2B Meetings**

Dear Colleagues,

Conference Series llc LTD., is delighted to welcome you to Singapore for the Prestigious 3<sup>rd</sup> **International Conference and Exhibition on Nanomedicine and Drug Delivery**. Nano Delivery 2019 will focus on “**Challenges and Innovations in Nanomedicine and Drug Delivery Research**”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Singapore.

With Regards,  
**Nano Delivery 2019**

# Program Announcement

Nano Delivery 2019

12+

Interactive Sessions

## Important Dates

Abstract submission opens: June 20, 2018

Registration opens: May 31, 2018

Early bird registration: August 20, 2018

Mid-Registration: December 10, 2018

On spot registration: March 13, 2019

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Nano Delivery 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Nephrology and Urology.

## About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation.

Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change.

Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one-quarter of its population are expatriates or foreign workers from all over the world. Known for its desire to become the technology hub of Asia, Singapore is the most wired country in the region.
