

Invitation...

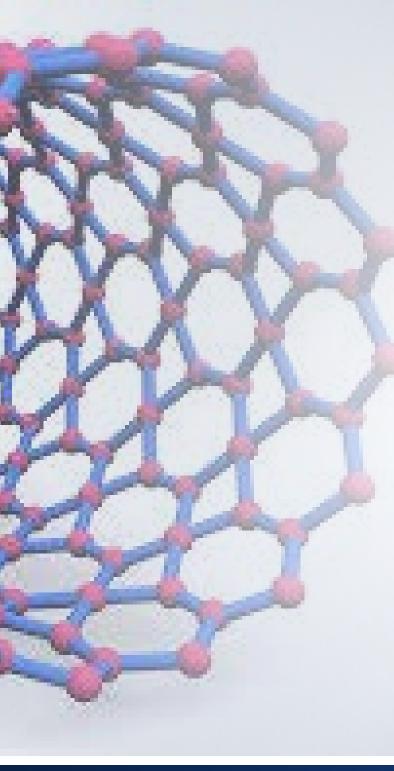

Dear Colleagues,

25th World Congress on Nanomaterials and Nanotechnology (NANO MATERIALS CONGRESS 2020) extends its welcome to you during May 25-26, 2020 at Osaka, Japan. with a theme "Optimizing the Demand of Nanomaterials with the Help of Nanotechnologies". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **NANO MATERIALS CONGRESS 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of carbon and Advanced Energy Materials.

Why to Attend???

NANO MATERIALS CONGRESS 2020 goal is to provide participants continuing dental education, propose novel research techniques, improve the skills and expertise in the areas of Dental Health, Oral Care, Public Health Dentistry, Endodontics and Orthodontics with its well-designed scientific program and quality lectures. It also paves way for making a good relationship with the dental associates through the B2B meetings and develop better business opportunities.

Conference Pessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of carbon and Advanced Energy Materials are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

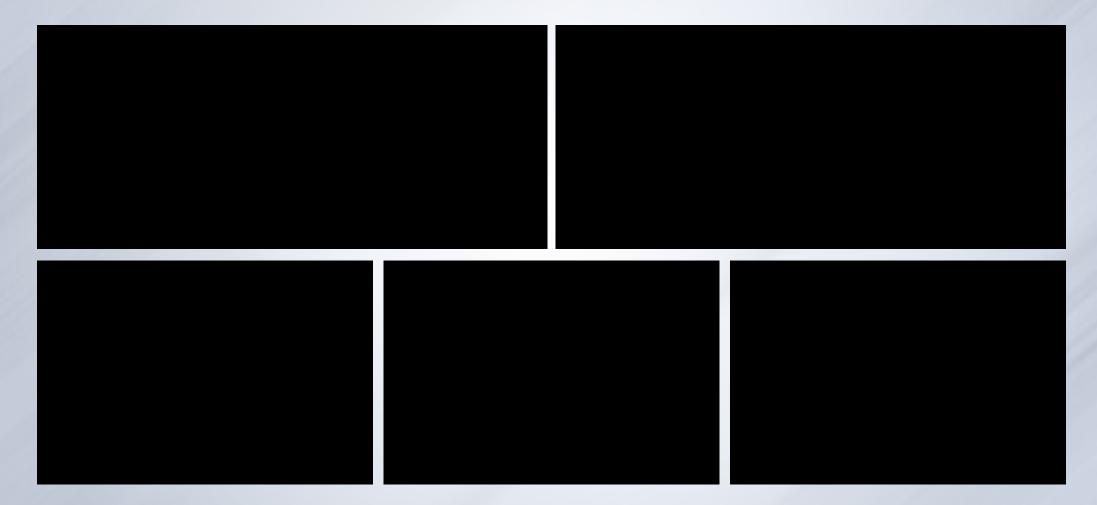

- Application of Nanotechnology
- Nanoparticles
- Nanophysics
- Nano Robotics
- Nanotechnology in Communications & Information Technology
- Functional Nanomaterials
- Nanotechnology for Biological System
- Nanotechnology in Materials Science

NANO MATERIALS CONGRESS 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - Journal of Biosensors & Bioelectronics
 - Journal of Nanoscience's: Current Research
 - Nano Research & Applications

	May 25, 2020
Time	Session
08:30 - 09:30	Registrations
09:30 -11:30	Keynote Forums
	Group Photo
11:30 -11:45	Network & Refreshment Break
11:45 -13:00	Application of Nanotechnology
13:00 -13:45	Lunch Break
13:45 -16:00	Nanoparticles Nanophysics
16:00 -16:15	Network & Refreshment Break
16:15 -18:00	Nano Robotics
	Day Concludes
May 26, 2020	
Time	Session
08:30 - 09:30	Registrations
09:30 -10:30	Keynote Forums
10:30 -11:30	Nanotechnology in Communications & Information Technology
11:30 -11:45	Network & Refreshment Break
11:45-13:00	Functional Nanomaterials Nanotechnology for Biological System
13:00 -13:45	Lunch Break
13:45 -16:00	Nanotechnology in Materials Science
16:00 -16: 15	Network & Refreshment Break
16:15 -18:00	Poster Presentations
	Day Concludes
	Award Ceremony

Osaka, Japan

Osaka is a designated city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with more than 20 million inhabitants.

Osaka was traditionally considered Japan's economic hub. By the Kofun period (300–538) it had developed into an important regional port, and in the 7th and 8th centuries it served briefly as the imperial capital. Osaka continued to flourish during the Edo period (1603–1867) and became known as a Center of Japanese culture. Following the Meiji Restoration, Osaka greatly expanded in size and underwent rapid industrialization. In 1889, Osaka was officially established as a municipality. Today, Osaka is a major financial Center of Japan. It is home to the Osaka Securities Exchange as well as the multinational electronics corporations Panasonic and Sharp. Famous landmarks in Osaka include Osaka Castle - which played a pivotal role in the Siege of Osaka and was featured in the 1980 American television mini-series Shogun - and Shitennō-ji - the oldest Buddhist temple in Japan.
