

5th Annual Congress on

Nano medicine and Drug Delivery

August 10-11, 2020 | Bangkok, Thailand

A person's hands are shown holding a large, vibrant red heart. The heart is the central focus, symbolizing care, health, and medicine. The background is softly blurred, showing what appears to be a person in a white lab coat, possibly a doctor or nurse, in a clinical setting. The overall tone is warm and professional.

Invitation...

Dear Colleagues,

Conference Series LLC Ltd welcomes you to attend the **5th Annual Congress on Nano Medicine and Drug Delivery** during **August 10-11, 2020** in **Bangkok, Thailand**. On this auspicious occasion, the Organizing Committee invites the participants from all over the globe to take part in this annual flagship conference with the theme "**Gathering new born advances in Cardiology**". Heart Conference 2020 aims in proclaim knowledge and share new ideas amongst the prestigious cardiologists, cardiology educators, fiery inspectors, postgraduates, affiliations, business meanders under a solitary rooftop.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Cardiology and Healthcare are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Nanoparticles and Nano medicine
- Pharmaceutical Nanotechnology
- The Evolution of Nano medicine with the Re-Evolution of Nano technology
- Nano medicine and Nano biotechnology
- Nano robotics and Nano medicine
- Smart Drug Delivery Technology
- Computational Studies in Nanoparticles
- Research and Development of Nano medicine
- Nanoparticles as Precise Drug Delivery Systems
- Polymer Nanoparticles for Nano medicines
- Design and Characterization of Nano Drug Systems
- Toxicology of Nanoparticles
- Emerging Nano medicine

Nano-Medicine Congress 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Journal of Nanomedicine & Nanotechnology
 - ☞ Journal of Nanomaterials & Molecular Nanotechnology
 - ☞ Journal of Nanomedicine & Biotherapeutic Discovery

Program at Glance

August 10, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 - 11:30	Keynote Forums
---------------	----------------

Group Photo

11:30 - 11:45	Network & Refreshment Break
---------------	-----------------------------

11:45 - 13:00	Nanoparticles and Nano medicine Pharmaceutical Nanotechnology Pharmaceutical Formulations
---------------	---

13:00 - 13:45	Lunch Break
---------------	-------------

13:45 - 16:00	The Evolution of Nano medicine with the Re-Evolution of Nano technology Nano medicine and Nano biotechnology
---------------	--

16:00 - 16:15	Network & Refreshment Break
---------------	-----------------------------

16:15 - 18:00	Nano robotics and Nano medicine Smart Drug Delivery Technology Computational Studies in Nanoparticles
---------------	---

Day Concludes

August 11, 2020

Time	Session
------	---------

08:30 - 09:30	Registrations
---------------	---------------

09:30 - 10:30	Keynote Forums
---------------	----------------

10:30 - 11:30	Research and Development of Nano medicine Nanoparticles as Precise Drug Delivery Systems Polymer Nanoparticles for Nano medicines
---------------	---

11:30 - 11:45	Network & Refreshment Break
---------------	-----------------------------

11:45 - 13:00	Design and Characterization of Nano Drug Systems Toxicology of Nanoparticles Emerging Nano medicine
---------------	---

13:00 - 13:45	Lunch Break
---------------	-------------

13:45 - 16:00	Applied Pharmaceutical Science Pharmacokinetics & Pharmacodynamics Novel Drug Delivery System Clinical Trails & Bio therapeutics
---------------	--

16:00 - 16: 15	Network & Refreshment Break
----------------	-----------------------------

16:15 - 18:00	Poster Presentations
---------------	----------------------

Day Concludes

Bangkok, Thailand

Bangkok is the capital and most populous city of Thailand. It is known in Thai as Krung Thep Maha Nakhon or simply Krung Thep. The city occupies 1,568.7 square kilometres (605.7 sq mi) in the Chao Phraya River delta in central Thailand, and has a population of over eight million, or 12.6 percent of the country's population. Over fourteen million people (22.2 percent) lived within the surrounding Bangkok Metropolitan Region at the 2010 census, making Bangkok the nation's primate city, significantly dwarfing Thailand's other urban centres in terms of importance.

Bangkok traces its roots to a small trading post during the Ayutthaya Kingdom in the 15th century, which eventually grew and became the site of two capital cities: Thonburi in 1768 and Rattanakosin in 1782. Bangkok was at the heart of the modernization of Siam, later renamed Thailand, during the late-19th century, as the country faced pressures from the West. The city was at the centre of Thailand's political struggles throughout the 20th century, as the country abolished absolute monarchy, adopted constitutional rule, and underwent numerous coups and several uprisings. The city grew rapidly during the 1960s through the 1980s and now exerts a significant impact on Thailand's politics, economy, education, media and modern society.
