# Our Programme

Our programme aims to bridge the gap between basic and technological science, emphasis on innovative practices, researchers and technologies in the fields of Nanotechnology, Materials Science, Nanotechnology in Water Treatment, Nano Pharmaceuticals.

We foster discussion and debate of the innovations by maximizing interactions, collaborations and networking opportunities for researchers and clinicians from academia, industry, and healthcare professionals.

5+ Keynote Sessions

# Venue & Hospitality

Abu Dhabi , the second most populous city of the United Arab Emirates and also capital of the Emirate of Abu Dhabi, the largest of the UAE's seven emirates; lies on a T-shaped island jutting into the Persian Gulf from the central western coast. The rapid development and urbanization along with the relatively high average income of its population has transformed Abu Dhabi city into large metropolis. The city is a major cultural and commercial Centre and also the country's Centre of political and industrial activities due to its position as the capital. Abu Dhabi accounts for majority of UAE's large hydrocarbon wealth around 95% of the oil and 92% of gas thus holding 9% of the world's proven oil reserves (98.2bn barrels) and almost 5% of the world's natural gas (5.8 billion cubic metres or 200 billion cubic feet) making about two-thirds of the roughly \$400-billion United Arab Emirates economy. The city holds several tourist attractions too like Sheikh Zayed Mosque, Mary, Mother of Jesus Mosque, Emirates Palace, Etihad Towers and may others.

# our DELEGATE is your CLIENT

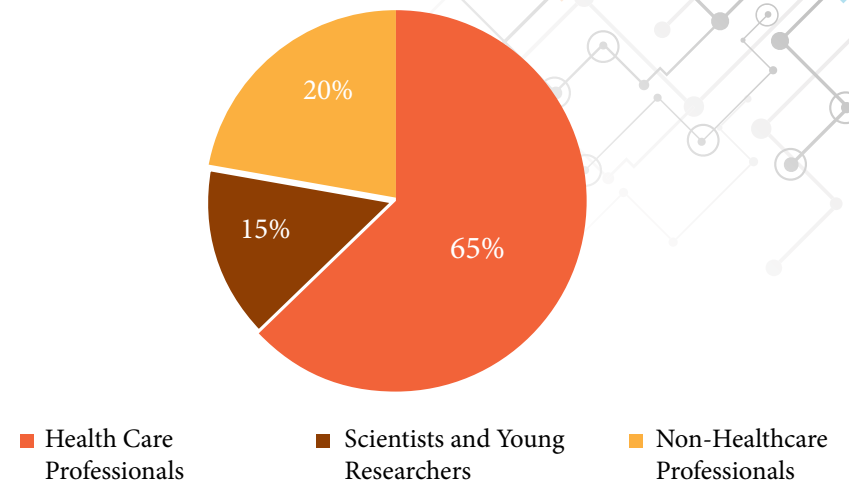

Exhibitors and sponsors have the opportunity for face-to-face networking with leading scientists and clinicians, increase brand awareness, and develop collaborations with an international audience.

In 2016-2017, the top ten countries represented by our delegates were: United States, United Kingdom, Germany, Netherlands, Belgium, Sweden, Canada, France, Switzerland, Japan and Spain
