*We believe..*

*Coming together for a Beginning*

*Keeping together for Progress*

*Working together for Success*

### Young Researchers Forum

- Present your novel research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration with eminent experts
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
- Opportunity for young researchers to learn about the research areas of their peers to increase their capacity as multidisciplinary researchers
- The best oral presentations in YRF will be certified by the Organizing committee

### Best Poster Awards

#### Selection criteria:

- You will be given with 15 minutes for your presentation including questionnaire from student council committee members.
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- Apart from the judging time you may also be present at the poster to share your research with interested delegates
- All presented posters are eligible for nomination for this award.
- Based on the quality of the research, Clarity of the presentation, and inventiveness of the results presented the best poster awards will be selected.
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement

# Invitation

Dear Colleagues,

Natural Hazards-2018 Conference is delighted to welcome you to Melbourne, Australia for the prestigious 2<sup>nd</sup> International Conference on Natural Hazards and Disaster Management held during July 26-27, 2018.

Natural Hazards-2018 will focus on "Significance of Early Warning Systems and Risk Management Strategies." Natural Hazards-2018 marks the presence of renowned experts and professionals, Academia, Industries, Associations, Environmental experts, Geology professionals, Delegates, Natural Disaster scientist, Climatology researchers, Emergency response/management-volunteer, Business leaders, Students across the globe ultimately making the event a hub for knowledge transfer facilitating business and academic collaborations. This is an excellent opportunity for the delegates from worldwide associations, societies, federations, NGO's, Universities and Institutes to Network and partner with the Natural Hazards-2018 community. The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

We look forward to see you at Melbourne, Australia

With Best wishes,

**Organizing Committee: Natural Hazards Congress 2018**

## Conference Highlights

- Coastal Geography
- Geological disasters and Earthquakes
- Meteorological Hazards
- Health Disasters & Epidemics
- Space Disasters
- Environmental Pollution
- Climate Change
- Global Warming
- Ecosystems and Biodiversity
- Geographic Information & Remote sensing
- Alarming alerts and Early warning systems
- Floodway Analysis
- Disaster Risk Management

## Opportunities at Natural Hazards Congress 2018

- Speaker Presentation
- Poster Competition
- Symposium
- Workshop Session Proposal
- Young Research Forum/ Student Fellowship
- Exhibitor Booth
- Sponsorship (Gold, Silver, Bronze)
- Media Partnership
