Opening Ceremony

Keynote Forum			
09:50-10:00	Introduction		
	Title: Arsenicin A from the marine sponge Echinochalina bargibanti as a drug lead:		
10:00-10:30	Synthesis and antitumor evaluation of related arsenicals		
	Ines Mancini, University of Trento, Italy		
10:30-11:00	Title: Anti-diabetic and anti-obesity effects of natural flavonoids		
	Hitoshi Ashida, Stanford University School of Medicine, USA		
	Networking & Refreshment Break: 11:00-11:20 @ Foyer		
11:20-11:50	Title: New and bioactive compounds from Hawaiian microorganisms		
	Shugeng Cao, University of Hawaii, USA		
	Title: Sustainable development and the future of marine natural products in Egypt:		
11.50 12.20	SMIAF-Prototype project		
11.50-12.20	Mohamed Ashour Fikry Metwally, National Institute of Oceanography and Fisheries, Egypt		
	Group Photo 12:20-12:35		
Sessions: Nat	ural Products Marine Biotechnology New Sources and Approaches to Natural Products		
	of Marine Drugs and Natural Products Natural Products Chemistry Natural Products		
_	y Phytomedicine and Phytochemistry Medicinal Natural Products Anti-cancer		
agents in Medicinal Plants Therapeutic Drugs and Personalized Medicines			
agents in Med	Session Chair: Ines Mancini, University of Trento, Italy		
Session Chair			
Session Chair	: Ines Mancini, University of Trento, Italy : Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction		
Session Chair Session Chair	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal		
Session Chair	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents		
Session Chair Session Chair	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina		
Session Chair Session Chair	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40		
Session Chair Session Chair	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and		
Session Chair Session Chair 12:35-13:00	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense -		
Session Chair Session Chair	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine		
Session Chair Session Chair 12:35-13:00	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a		
Session Chair Session Chair 12:35-13:00	Elies Mancini, University of Trento, Italy Elies Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Elnes Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Elnes Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats Aishwarya Balap, PES Modern College of Pharmacy, India		
Session Chair Session Chair 12:35-13:00 13:40-14:05 14:05-14:30	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats Aishwarya Balap, PES Modern College of Pharmacy, India Title: Cytotoxic effect of peptides isolated from sea cucumber, Holothuria parva, muscle		
Session Chair Session Chair 12:35-13:00 13:40-14:05	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats Aishwarya Balap, PES Modern College of Pharmacy, India Title: Cytotoxic effect of peptides isolated from sea cucumber, Holothuria parva, muscle protein hydrolysis on the breast cancer cell line (4T1)		
Session Chair Session Chair 12:35-13:00 13:40-14:05 14:05-14:30	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats Aishwarya Balap, PES Modern College of Pharmacy, India Title: Cytotoxic effect of peptides isolated from sea cucumber, Holothuria parva, muscle protein hydrolysis on the breast cancer cell line (4T1) Samira Besharati, Tarbiat Modares University, Iran		
Session Chair Session Chair 12:35-13:00 13:40-14:05 14:05-14:30 14:55-15:20	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats Aishwarya Balap, PES Modern College of Pharmacy, India Title: Cytotoxic effect of peptides isolated from sea cucumber, Holothuria parva, muscle protein hydrolysis on the breast cancer cell line (4T1) Samira Besharati, Tarbiat Modares University, Iran Title: Comparison of conventional and microwave assisted acid mediated pectin		
Session Chair Session Chair 12:35-13:00 13:40-14:05 14:05-14:30	Ines Mancini, University of Trento, Italy Hitoshi Ashida, Stanford University School of Medicine, USA Session Introduction Title: Natural sesquiterpene lactones as potential Trypanocidal and Leishmanicidal agents Liliana V Muschietti, University of Buenos Aires, Argentina Lunch Break: 13:00-13:40 Title: Study of acute oral toxicity and evaluation of the nephroprotective, hepatoprotective and cardioprotective properties of Gomphrena celosioides, Cola nitida and Entandrophragma angolense - three plants of Ivorian traditional medicine Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast Title: Trichiliasinenoids A-C, three novel 6,7-secomexicanolide limonoids with a 7,29-linkage from Trichilia sinensis Donghua Cao, Chinese Academy of Sciences, China Title: Herb-drug interaction of Andrographis paniculata (Nees) extract and andrographolide on pharmacokinetic and pharmacodynamic of Etoricoxib, Nabumetone and Naproxen in rats Aishwarya Balap, PES Modern College of Pharmacy, India Title: Cytotoxic effect of peptides isolated from sea cucumber, Holothuria parva, muscle protein hydrolysis on the breast cancer cell line (4T1) Samira Besharati, Tarbiat Modares University, Iran		

16:05-16:30	bodies	
	Yuh Shan Chung, Development Center For Biotechnology, Taiwan Title: Some biochemical parameters and their relation with elevation of ovary tumor	
16:30-16:55	marker – our experience	
10.30-10.33	Slobodan Dunjić, Center for Integrative procedures and Supplements, Serbia	
	Title: Presence of high blood pressure and level of some biochemical parameters — our	
16:55-17:20	experience	
	Dušan Vešović, VISAN - Sanitary Medical School of Applied Sciences, Serbia	
17:20-17:45	Title: Identification and optimization of lead compound obtained from Celosia argentea Rukhsana A Rub, Smt Kashibai Navale College of Pharmacy, India	
	Panel Discussion	
_	Day 2 Lune 12, 2019	
	Day 2 June 12, 2018 Hall - Olimpica 2	
	Keynote Forum	
09.50-10.00	Introduction	
07.30-10.00	Title: Bioactive biomasses in food and not food application-the case study of Brassicales	
10:00-10:30	Luca Lazzeri, Council for Agricultural Research and Economics—Cereal and Industrial Crop	
	Research Centre, Italy	
	Title: Stability enhancement of anthocyanins from Hibiscus sabdarriffa with respect to	
10:30-11:00	their application as food colorant	
	Santosh Bhujbal, Dr D Y Patil Institute of Pharmaceutical Sciences and Research, India	
	Networking & Refreshment Break: 11:00-11:20 @ Foyer	
11 00 11 50	Title: A research pipeline for the discovery of bioactive small molecules with anti-aging activity from the Marine Mesophotic Zone	
11:20-11:50	Ioannis P Trougakos, National and Kapodistrian University of Athens, Greece	
	Title: Aquatic, semi-aquatic medicinal plants used as food and remedy in Iran	
11:50-12:20	Mohammadbagher Rezaee, Research Institute of Forest and Rangelands, Iran	
Sessions: Nat	ural Products as Anti-Cancer Drugs Marine: The Ultimate Source of Bioactives and Drug	
	Marine Natural Products Drug Discovery Bioactive Natural Products Bioactive Natural	
	Marine Bacteria Marine Probiotics and Prebiotics A Promising Future for Marine	
	tural Products Medicinal Chemistry & Drug Discovery	
Session Chair: Shugeng Cao, University of Hawaii, USA Session Chair: Mohammadbagher Rezaee, Research Institute of Forest and Rangelands, Iran		
Jession Chair	Session Introduction	
	Title: Antioxidant and tyrosinase inhibitory activities of γ -keto ester derivatives of carvacrol	
12:20-12:45	and thymol	
	Geneive E Henry, Susquehanna University, USA	
	Lunch Break: 12:45-13:30	
	Title: An investigation of compounds and their bioactivities from Jamaican Gracilaria	
13:30-13:55	mammillaris, Clavelina picta and Plexaurella nutans	
	Doleasha Davis, The University of the West Indies–Mona, Jamaica	
13:55-14:20	Title: Anti-inflammatory activity of Lupalbigenin from Derris scandens in Raw 264. 7 cells	
	Sriklung K , Srinakharinwirot University, Thailand	
14:20-14:45	Title: Oxodolastanes from the Jamaican brown alga, Canistrocarpus cervicornis	
	Sanjay Campbell, The University of the West Indies–Mona, Jamaica	
	Title: Improvement of secondary metabolites from Phyllanthus odontadenius against	
14:45-15:10	malaria by mutagenesis Rufin Kikakedimau Nakweti, Regional Center for Nuclear Studies of Kinshasa, Democratic	

Rufin Kikakedimau Nakweti, Regional Center for Nuclear Studies of Kinshasa, Democratic

Page 3

Republic of the Congo

Networking & Refreshment Break:15:45-16:05 @ Foyer

Title: Solid state culture and metabolites analysis of white Antrodia cinnamomea fruiting

15:10-15:35	Title: Natural products with aromatic structure and their influence in vegetable systems
	Corneliu Tanase, University of Medicine and Pharmacy, Romania
	Title: Evaluation of the hepatoprotective activity of the ethanol extract of Gomphrena
15:35-16:00	celesioides
	Bamba Abou, Université Félix Houphouët-Boigny, Ivory Coast

	Networking & Refreshment Break: 16:00-16:15 @ Foyer	
	Poster Presentations 16:15-17:15	
Poster Judge: Santosh Bhujbal, Dr D Y Patil Institute of Pharmaceutical Sciences and Research, India		
NP-01	Title: N-acetyldopamine dimers with anti-platelet aggregation activity from Oxya chinensis	
	sinuosa	
	InWha Park, Chungnam National University, South Korea	
NP-02	Title: Cucurbitane Triterpenoids derived from Momordica charantia inhibit proliferation of	
	vascular smooth muscle cells	
	DaYoung Kim, Chungnam National University, South Korea	
NP-03	Title: Discorhabdin alkaloids from Antarctic Latrunculia spp. sponges as a new class of	
	cholinesterase inhibitors	
	Ines Mancini, University of Trento, Italy	
NP-04	Title: Comparative in vivo antidiabetic evaluation of Glimepiride, Fenugreek and their	
	combination in Streptozotocin induced diabetic rats	
	Hala H Zaatout, Alexandria University, Egypt	
NP-05	Title: Total phenolic content, antioxidant activity and cytotoxicity on Vibrio fischeri of herbal	
	blends infusions from Greek flora: A synergism evaluation	
	Elpida Giorgi, University of Athens, Greece	
NP-06	Title: Screening British Columbia (BC) wild mushrooms for anti-cancer properties	
	Bryan Chu Chwen LIM, University of Northern British Columbia, Canada	
NP-07	Title: Evaluation of the cytotoxic effect of extracts of Cuphea aequipetala Cav. and Verbena	
	carolina L. on cancer cell lines	
	Calleros F R, Universidad Autónoma Metropolitana, Mexico	
NP-08	Title: Chemical-Pharmacological study of Centaurea americana	
	Jimenez P E, Universidad Autónoma Metropolitana, Mexico	

Panel Discussion

Award & Closing Ceremony
