Program Announcement

Venue
Osaka, Japan

Important Dates
Abstract Submission Opens: March 25, 2019
Online Registration Opens: March 01, 2019
Early bird Registration Opens: September 05, 2019
On spot Registration: December 09, 2019

Accommodation
A large number of rooms have been reserved. Discounted room rates for Neonatal Care 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship
An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Neonatology.

About Osaka
OSAKA (about 330 miles southwest of Tokyo) is the second largest city in Japan and the 13th largest city in the world, with a population of about 10.5 million people. Situated on a sheltered bay, it is also the commercial, shipping and industrial center of western Japan, the second major gateway to Japan after Tokyo and the transportation and communication hub of the Kansai region, with a convenient connections to Kyoto, Nara, and Kobe, the Inland Sea area, and Shikoku, which are all nearby. Even though Osaka is flat as flat can be its name means “big hill.” Foreign guide books usually do not have much nice to say about Osaka. One said its biggest claims to fame were the yakuza and pachinko. Another called the “Elephant Man” of Japan—ugly but wanting desperately to be loved. Osaka made not be as well-known, rich and flashy as Tokyo but Osakans will tell you that it is a more real, honest, friendly and earthy place with a deeper history and a richer sense of humor and fun.

Many say it is the heart of Japan. The people may be a little crude, inconsiderate and pushy at times, yes, but they are also more warm, open and generous. Many of Japan’s funniest comedians are from Osaka. Osaka isn’t a very attractive place. Sometimes it seems like an endless concrete jungle of crowded streets and sidewalks, train lines, factories, office buildings, pre-fab homes and apartments squeezed much too close together. There isn’t all that much to see either. The main tourist sites include a concrete castle, an ultra-modern aquarium with a whale shark and the first Universal Studio to open up outside the United States.
