About Tokyo

Tokyo is the capital city of Japan, and the greatest city in Japan as far as populace and region. Tokyo is found generally amidst the Japanese archipelago confronting the Pacific Ocean. Tokyo is on the Kanto plain, flanking Tokyo Bay, 35 degrees 41 minutes north scope and 139 degrees 46 minutes east longitude. The Tokyo Megalopolis Region, or Greater Tokyo Area, includes Tokyo and the three neighboring prefectures of Chiba, Saitama, and Kanagawa. The Tokyo locale contains around 26% of Japan's aggregate populace. The National Capital Region includes Tokyo and seven encompassing prefectures: Chiba, Saitama, Kanagawa, Gunma, Tochigi, Yamanashi, and Ibaraki. Two noteworthy waterways course through Tokyo, the Sumida River, running north-to-south into Tokyo narrows, and the Tama River, running west-to-east, and shaping the outskirt amongst Tokyo and Kawasaki. Different streams incorporate the Edo, Arakawa, Sumida, Tama and Kanda waterways. Tokyo has an aggregate land territory of 2187.42 square km and is home to around 10% of the number of inhabitants in Japan. Counting the neighboring prefectures of Saitama, Chiba and Kanagawa, the Tokyo conurbation has an aggregate populace of more than 37 million occupants, one of the biggest populace agglomerations on the planet.
