About Osaka

Osaka is Japan's second largest metropolitan area. It has been the economic powerhouse of the Kansai region for many centuries. It is close to Kyoto, Nara and the heartland of Japan, and it offers fascinating glimpses of Japanese urban life: four-story office buildings under 12-lane expressways; multistory buildings with Ferris wheels and amusement parks on the roof; and subterranean shopping malls that pumped their sewage up and are so large you have occasionally go above ground to see where you are. Osaka has a reputation for having the best food in Japan. Osaka has a long association with business and economic activity. Its GNP is greater than that of Mexico and Canada and all but eight countries in the world.
