**conference**series LLC Ltd 2483<sup>rd</sup> Conference

## **Scientific Program**

**Annual Congress on** 

## NEPHROLOGY & HYPERTENSION

December 06-07, 2018 Amsterdam, Netherlands

## Hall - Meeting Place 3

conferenceseries.com 10:00-10:15

## **Opening Ceremony**

	ea Il
Reno Rudiman, Indonesian Society of Endolaparoscopic Surgery, Indonesia  Group Photo @ 11:00-11:  Networking and Refreshment Break 11:05-11:20 @ Pre Function At  11:20-12:05  Title: Bariatric surgery and metabolic syndrome: are the '91 NIH guidelines still adequate?  Antonio Gangemi, University of Illinois, USA  Title: Rasburicase induced Methemoglobinemia and Acute hemolysis in a patient with Esophage  12:05-12:50  cancer and normal G6PD screening, used for prevention of tumor lysis syndrome: a case report Abdulhakeem Almarwani, King Abdulla Medical City, KSA  Lunch 12:50-13:50 @ The Galle Major Sessions: Nephrology   Urology   Hypertension   Renal Care   Diabetes   Gastroenterology   Dialysis	ea Il

Major Sessions: Nephrology   Urology   Hypertension   Renal Care   Diabetes   Gastroenterology   Dialysis	r V
Tract Infections   Advancements in Nephrology Research	
, , , , , , , , , , , , , , , , , , , ,	
13:50-14:15  Title: Novel role of Gas1 protein on podocyte regeneration in early stages of diabetes  Brenda Ivonne Luna Antonio, CINVESTAV, Mexico	
14:15-14:40 Title: How to manage diabetic kidney disease with CHF for PCI? : a case report	
Dewi Gathmyr, University of Indonesia, Jakarta	
Nephrological Disorders   Kidney Transplant   Endocrinology   Pediatric Nephrology   Renal Nutrition   Urinary Tract Infections   Advancements in Nephrology Research Sessions Chair: Antonio Gangemi, University of Illinois, USA Sessions Co-Chair: Reno Rudiman, Indonesian Society of Endolaparoscopic Surgery, Indonesia  13:50-14:15 Title: Novel role of Gas1 protein on podocyte regeneration in early stages of diabetes Brenda Ivonne Luna Antonio, CINVESTAV, Mexico  14:15-14:40 Title: How to manage diabetic kidney disease with CHF for PCI?: a case report Dewi Gathmyr, University of Indonesia, Jakarta Title: Prevalence and outcome of acute kidney injury in dengue patients in a tertiary care 14:40-15:05 hospital, India Jaiju James Chakola, Sri Ramachandra Institute of Higher Education and Research Centre, India Title: Fungal Urosepsis in a susceptible preterm baby presenting with acute renal failure Nikhil Kulkarni, Jupiter Lifeline Hospitals, India  Networking Break & Poster Presentation 15:30-16:00 @ Pre Finction Area  Title: Implementation of a dedicated nurse-led AKI service in a district general hospital, a  NEPH-01 Retrospective Audit Amrita Ramnarine & David Mathew, Barking, Havering and Redbridge University Hospital, UK Title: Gas1 expression in parietal cells of Bowman's Capsule in experimental diabetic nephropathy Brenda Ivonne Luna Antonio, CINVESTAV, Mexico Title: Patient experience in ANCA-associated vasculitis demonstrates evolving challenges	
15:05-15:30	
NEPH-02  Title: Gas1 expression in parietal cells of Bowman's Capsule in experimental diabetic nephropat	y
Brenda Ivonne Luna Antonio, CINVESTAV, Mexico	
NEPH-03 following diagnosis and major adverse impacts from current therapy	
Peter Rutherford, Vifor Pharma, Switzerland	
Section Continues	
Session Continues . Title: Study on quality of life amona adult patients on Hemodialysis and post-transpaint patients	_
Title: Study on quality of life among adult patients on Hemodialysis and post-transpalnt patients	_
Title: Study on quality of life among adult patients on Hemodialysis and post-transpalnt patients 16:00-16:25 Ahmed Qasim Hospital- Khartoum Sudan in December 2017	_
Title: Study on quality of life among adult patients on Hemodialysis and post-transpalnt patients	_
Title: Study on quality of life among adult patients on Hemodialysis and post-transpalnt patients  16:00-16:25 Ahmed Qasim Hospital- Khartoum Sudan in December 2017  Noon Idris Abdelrahman Mohamed, University of Khartoum, Sudan  Title: Relapsing disease in ANCA-associated vasculitis has a variable response to therapy and is  16:25-16:50 associated with therapy related adverse events and cumulative damage	
Title: Study on quality of life among adult patients on Hemodialysis and post-transpalnt patients 16:00-16:25 Ahmed Qasim Hospital- Khartoum Sudan in December 2017 Noon Idris Abdelrahman Mohamed, University of Khartoum, Sudan Title: Relapsing disease in ANCA-associated vasculitis has a variable response to therapy and is 16:25-16:50 associated with therapy related adverse events and cumulative damage Peter Rutherford, Vifor Pharma, Switzerland	_
