About Osaka, Japan

Osaka is located in the humid subtropical climate zone with four distinct seasons. Its winters are generally mild, the flower fields offer a wide variety of flowers in the month of May however, the region is most famous for its lavender which attracts large numbers of visitors every summer, when the plants are in full bloom. Spring in Osaka starts off mild, but ends up being hot and humid. Greater Osaka has an extensive network of railway lines, comparable to that of Greater Osaka. Osaka is served by two airports outside of the city, Kansai International Airport which handles primarily international passenger flights and Osaka International Airport which handles mostly domestic services and some international cargo flights.

Top Tourist Attractions in Japan

Mount-Fuji: Mount Fuji's snowy peak through cherry blossom leaves. It is the highest mountain in Japan with a height of 3,776 meters (12,388 feet). The mountain with its volcano forms a symmetrical cone which has become a symbol for Japan.

Osaka-Tower: "Man Made" is often the keyword used to describe the Japan of today as this brilliant civilization innovated their way to greatness. And the Osaka Tower perfectly symbolizes the glory of modern Japan.

Hiroshima-Peace-Memorial-Park: Standing like a silent witness of one of the greatest tragedies of the world is Hiroshima's Peace Memorial Park in the heart of Hiroshima. It was built to memorialize the victims of horrific nuclear bombing that took place here near the end of World War II.

Todaiji-Temple: Home to one of the largest statues of Buddha, Todaiji Temple is one of the seven great and famous temples located in the city of Nara.
