**Title: Shugan clue us to the discovery of shared molecules that mediate anti-depression and prokinetic in stressed rat**
Xi Huang, Nanjing University of Chinese Medicine, China

**Title: Pythagorean Self-awareness Technique for Stress Management and Self-Empowerment Related to Healthy Lifestyle in Healthy Volunteers: A Pilot Study.**
Darviri Christina, University of Athens, Greece

**Title: Measuring blood-glucose levels to distinguish between psychological and physiological reductions in stress after drawing for 15 minutes.**
Aris Karagiorgakis, Black Hills State University, USA

**Title: Neuropsychological approach in the investigation of time perception in late life depression**
Lika Igorevna Mikeladze, Lomonosov Moscow State University, Russia

**Title: The psychological effects of singing in a choir on anxiety, mood, and sociability**
David Budd, University of London, UK

**Title: Neuropsychological analysis of human executive and other cognitive functions in Natural Aging**
M. Machavariani-Tsereteli, Ivane Javakhishvili Tbilisi State University, Georgia

**Title: Introducing a novel integrative method named ‘Immunoneuropsychoanalysis’**
Karlo Toljan, University of Zagreb, Croatia

**Title: Emotions Under Control: Managing Emotions**
Sven Barnow, Heidelberg University, Germany

**Title: Sex differences in affective disorders in adult rats after infantile immune stimulation**
Inssaf Berkiks, University Ibn Tofail, Morocco
| P6 | Title: Associations of Sleep, Anxiety and Salivary Cortisol Profile under Different Stressful Conditions in Healthy Female College Students  
Minhee Suh, Inha University, Republic of Korea |
| P7 | Title: Association between perceived stress, relapse situation and self-efficacy to quit smoking in young and old men  
Tae Hui Kim, Yonsei University Wonju Severance Christian Hospital, South Korea |
| P8 | Title: Effectiveness of Georgian version of MoCA for cognitive screening in Multiple Sclerosis  
Nazibrola Botchorishvili, Simon Khechinashvili University Hospital, Georgia |
| P9 | Title: Searching for the human VGF-derived antidepressant neuropeptide TLQP-62 receptor: HSPA8/TLQP-62 complex  
Daniela M. Moutinho, University of Santiago de Compostela, Spain |

Networking & Refreshment Break @15:20-16:00 @ COLON

Closing Ceremony
About Barcelona:

Barcelona, the capital of Catalonia, is one of the most popular tourist destinations in Europe. The city combines modern and historic architecture in a unique way.

Barcelona has been a center of Modernist architecture and is distinguished specially by the works of genial Antoni Gaudi, who together with his great contemporaries gave new and exciting looks to it, but has remained since then at the top of modernity.

La Sagrada Familia is the most popular attractions in Barcelona, attracting nearly 2.8 million visitors each year. It is a large and intricate basilica designed by Antoni Gaudi. Construction began in 1882 and continues to this day. The building is predicted to be completed within the next 30 years. Visitors will be captivated by the design elements and the religious symbolism built into all the spaces of the church. A glorious exterior and interior make La Sagrada Familia truly unmissable.

Barcelona has been a center of Modernist architecture and is distinguished specially by the works of genial Antoní Gaudí, who together with his great contemporaries gave new and exciting looks to it, but has remained since then at the top of modernity.

La Sagrada Familia is the most popular attractions in Barcelona, attracting nearly 2.8 million visitors each year. It is a large and intricate basilica designed by Antoni Gaudí. Construction began in 1882 and continues to this day. The building is predicted to be completed within the next 30 years. Visitors will be captivated by the design elements and the religious symbolism built into all the spaces of the church. A glorious exterior and interior make La Sagrada Familia truly unmissable.

Magic Fountain is a fountain located below the National Palace on the Montjuic hill and near the Plaça d'Espanya and Poble Espanyol. The fountain, like the juice of the surrounding developments, was constructed for the 1929 Barcelona International Exposition. On selected evenings, when the fountain is activated, it attracts hundreds of visitors who watch the spectacular display of light, water and music. At the same time, the Palau National is illuminated, providing a beautiful background.

It has a huge number of attractions including a city centre which retains its medieval street plan; some stunning modernist architecture including several buildings by Gaudí - Spain's most famous architect; dozens of museums including one dedicated to Picasso, another to Miró and yet another to Barça, Barcelona's world famous football club!

Barcelona is almost as lively at night as it is during the day and it has a unique, exciting atmosphere, which provides the visitor with a truly unforgettable experience.
