13th World Conference on
Neurology and Neuromuscular Disorders
October 01-02, 2018 | Frankfurt, Germany
DAY-1
October 01, 2018
Meeting Hall: Taunus

09:30-10:00 Registrations

Opening Ceremony  10:00-10:25

KEYNOTE FORUM

10:25-10:30  Introduction

Title: Role of tele-physiotherapy in managing contemporary challenges to neurorehab - an Indian perspective
Sanjeev Gupta, Banarsidas Chandiwala Institute of Physiotherapy, India

Networking & Refreshments 11:10-11:30 @ Foyer

10:30-11:10  Title:

Digital technologies and machine learning for ubiquitous monitoring of neurological and neuromuscular disorders
Sri Krisnan, Ryerson University, Canada

11:30-12:10  Introduction

Title: Growing challenges with phenotype-based practice, muscle biopsy in neuromuscular diseases? A few novel presentations
Sankar Bandyopadhyay, Penn State College of Medicine, USA

12:10-12:40  Title:

Paraneuronal gill NE cells in fishes: Probable bio-indicators
Anita Gopesh, University of Allahabad, India

Lunch Break 13:10-14:00 @ Gaumenfreund

12:40-13:10  Title:

Running out of time: The experience of living with a neurological condition
Jo Ferrie, University of Glasgow, Scotland

14:00-14:30  Title:

Maternal exposure to novel atypical psychotropic drugs: Impact on fetal brain development, apoptosis, neurodegeneration and psychopathological sequelae in young offspring
K P Singh, University of Allahabad, India

14:30-15:00  Title:

Riche-Cannieu anastomosis associated with carpal tunnel syndrome: A case report
Mervat Wahba, University of Tennessee, USA
**Panel Discussion**

**DAY-2**

October 02, 2018

Meeting Hall: Taunus

**KEYNOTE FORUM**

10:30-11:10  
**Title:** A molecular geometry imaging platform enabling life saving measures in ALS  
Walter Schubert, International Human Toponome Project, Toposnomos Ltd, Germany

**Networking & Refreshments 11:10-11:30 @ Foyer**

11:30-12:10  
**Title:** The use of electroglottography in the assessment of voice in neurological diseases  
Kostas Konstantopoulos, European University Cyprus, Cyprus

**Sessions:** Clinical Neurology | Neurological Intensive Care | Neurodevelopment Disorders | Movement Disorders | Neurology Case Reports | Brain Disorders

**Chair:** Kostas Konstantopoulos, European University Cyprus, Cyprus

**INTRODUCTION**

12:10-12:40  
**Title:** Characterization of mesoangioblasts and modulation of their engraftment capacity for Duchenne muscular dystrophy gene therapy  
Lionel O Mavoungou, University of Lausanne, Switzerland

12:40-13:10  
**Title:** Neurocysticercosis discovered incidentally during an asynchronous single brain metastasis of breast adenocarcinoma  
Abou Dao, Hospital de District de Bogodogo, Burkina Faso

**Lunch Break 13:10-14:00 @ Gaumenfreund**

14:00-14:30  
**Title:** Parkinson's disease (PD): Mutations in leucine-rich repeat kinase 2  
David Boyer Ramsden, University of Birmingham, UK

14:30-15:00  
**Title:** Anti-β2-glycoprotein I autoantibody expression as a potential biomarker for strokes in patients with anti-phospholipid syndrome  
Husham Bayazed, University of Zakho, Iraq

**PANEL DISCUSSION**

Awards & Closing Ceremony
