17th International Conference on

Neurology and Neuromuscular Disorders February 17-18, 2025 Paris, France

Day 1 – February 17, 2025 (Monday)

Introduction: 09:45 - 10:00

	KEYNOTE PRESENTATIONS
10:00 - 10:40	Title: "TRPV4 neuromuscular disease registry highlights bulbar, skeletal and proximal limb manifestations
	John W. Day, MD, PhD, University of Standford, USA
10:40 - 11:20	Title: Advances and challenges in modeling inherited peripheral neuropathies using iPSCs.
	David Bennett, Oxford University Hospitals Foundation Trust, UK
11:20 - 12:00	Title: Lower serum uric acid and impairment of right cerebral hemisphere structural brain networks are related to depressive symptoms in cerebral small vessel disease: A cross-sectional study
	Zeng Jinsheng Sun Yat-Sen University, China
	Photo session: 12:00 - 12:30
	SPEAKER PRESENTATIONS
12:30 - 13:00	Title: Recessive cerebellar and afferent ataxias - clinical challenges and future directions
	Marie Beaudin, MD, University of Standford, USA
13:00 - 13:30	Title: A diagnostic framework to identify vestibular involvement in multi-sensory neurological disease
	Robert Pitceathly, University College London
13:30 - 14:00	Title: Suggestive annotation of brain MR images with gradient-guided sampling
	Wenjia Bai, Imperial college of London, UK
14:00 - 14:30	Title: Deep imaging in the brainstem reveals functional heterogeneity in V2a neurons controlling locomotion
	Julien Bouvier, French National Centre for Scientific Research, France
14:30 - 15:00	Title: Andexanet for Factor Xa Inhibitor—Associated Acute Intracerebral Hemorrhage
	Sheba Medical Center; Sackler Faculty of Medicine at Tel Aviv University, Israel
	Lunch break: 15:00 - 15:30
15:30 - 16:00	Title: CT Or MRI protocol for acute stroke reperfusion with EVT (COMPARE): an international retrospective cohort study
	Grant Stotts, The Ottawa Hospital, Canada
16:00 - 16:30	Title: CDP-ribitol prodrug treatment ameliorates ISPD-deficient muscular dystrophy mouse model
	Tatsushi Toda, The University of Tokyo Hospital, Japan

Opening Ceremony (8:30-9:00)

Title: "The Pursuit to Understand Alzheimer's Disease and Find New Modifying Agents Dr. Anthony Tsarbopoulos , Medical School, National and Kapodistrian University of Athens, Department of Pharmacology 109:30 - 10:00 Title: Cluster Analysis-based Phenotyping Demonstrates Six Differential Phenotypes of Patients: with Neuropathic Corneal Pain. Dr. Pedram Hamrah, Tufts Medical Center, Boston, Massachusetts, United States 10:00 - 10:30 Title: Exploring Trauma and Collective Healing Among Internally Displaced Persons in Ethiopia: . Community-Based Participatory Study Waganesh Zeleke, PhD, LPC,NCC, Virginia Commonwealth University,USA SPEAKER PRESENTATIONS 10:30 - 11:55 Title: Characteristics and Health Needs of Older People Living Alone Visiting a Memory Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan 11:55 - 12:20 Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA 12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera spatial neglect	
Dr. Anthony Tsarbopoulos , Medical School, National and Kapodistrian University of Athens, Department of Pharmacology Title: Cluster Analysis-based Phenotyping Demonstrates Six Differential Phenotypes of Patients: with Neuropathic Corneal Pain. Dr. Pedram Hamrah, Tufts Medical Center, Boston, Massachusetts, United States 10:00 - 10:30 Title: Exploring Trauma and Collective Healing Among Internally Displaced Persons in Ethiopia: Community-Based Participatory Study Waganesh Zeleke, PhD, LPC,NCC, Virginia Commonwealth University,USA SPEAKER PRESENTATIONS Title: Characteristics and Health Needs of Older People Living Alone Visiting a Memory Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	4
Department of Pharmacology Title: Cluster Analysis-based Phenotyping Demonstrates Six Differential Phenotypes of Patients with Neuropathic Corneal Pain. Dr.Pedram Hamrah, Tufts Medical Center, Boston, Massachusetts, United States Title: Exploring Trauma and Collective Healing Among Internally Displaced Persons in Ethiopia: Community-Based Participatory Study Waganesh Zeleke, PhD, LPC,NCC, Virginia Commonwealth University,USA SPEAKER PRESENTATIONS Title: Characteristics and Health Needs of Older People Living Alone Visiting a Memory Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA 12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	A
Neuropathic Corneal Pain. Dr. Pedram Hamrah, Tufts Medical Center, Boston, Massachusetts, United States 10:00 - 10:30 Title: Exploring Trauma and Collective Healing Among Internally Displaced Persons in Ethiopia: Community-Based Participatory Study Waganesh Zeleke, PhD, LPC,NCC, Virginia Commonwealth University,USA SPEAKER PRESENTATIONS 10:30 - 11:55 Title: Characteristics and Health Needs of Older People Living Alone Visiting a Memory Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan 11:55 - 12:20 Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA 12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	1
Title: Exploring Trauma and Collective Healing Among Internally Displaced Persons in Ethiopia: A Community-Based Participatory Study Waganesh Zeleke, PhD, LPC,NCC, Virginia Commonwealth University,USA SPEAKER PRESENTATIONS Title: Characteristics and Health Needs of Older People Living Alone Visiting a Memory Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	À
Community-Based Participatory Study Waganesh Zeleke, PhD, LPC,NCC, Virginia Commonwealth University,USA SPEAKER PRESENTATIONS 10:30 - 11:55 Title: Characteristics and Health Needs of Older People Living Alone Visiting a Memory Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan 11:55 - 12:20 Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA 12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	A

Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
Clinic in Aging Japan Shinichiro Maeshima, National Center for Geriatrics and Gerontology, Japan Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
Title: Comparison of Ocular Pain Perception and Quality of Life Impact in Refractive Surgery- and Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA 12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
Non-Refractive Surgery-related Neuropathic Corneal Pain Leyla Mirzaee, Tufts University School of Medicine, Boston, Massachusetts, USA 12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
12:20 - 12:45 Title: The Impact of Covid Stress and Social Support on Depressive Symptoms among Sri Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
Lankan Young Adults Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
Nuwanthi Tharaka, Perera Weerasooriya Arachchige University of Nebraska-Lincoln, USA Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
Title: Artificial intelligence and virtual reality Kinect rehabilitation in stroke patients with Unilatera	
1 7 4 5 = 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	
	I
Lama Saad El-Din Mahmoud, October 6 University, Egypt	
1:10 - 1:35 Title: CRIMINOLOGICAL IMPACTS AND PSYCHOPATHOLOGY	
Hamida Ouled Slimane; President of the PSAF office in France	
Lunch break: 1:35 - 02	:00
Title: Association of social network with depressivesymptoms:alongitudinal analysis based or school peer networks amongChineseuniversity students	l
Jingyu Zhang, Sun Yat-Sen University, China	
02:30 - 03:00 Title: Integrating Care: Uniting Systems to Combat Bipolar Disorder in a Post-COVID World	
Jason Miller, University of Incarnate Word, USA	

Disclaimer: Please note that this is not the final program for the 17th International Conference on Neurology and Neuromuscular Disorders. The final program will be updated by **February 5**, **2025.**

The final phase for abstract submission closes on February 4, 2025.

For further updates or assistance, feel free to reach out via WhatsApp at +44 330 822 1359.
