Dubai is a city and emirate in the United Arab Emirates known for luxury shopping, ultramodern architecture and a lively nightlife scene. Burj Khalifa, an 830m-tall tower, dominates the skyscraper-filled skyline. At its foot lies Dubai Fountain, with jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks.

Dubai is one of the wonders of the modern world. A decade ago the sand was the ruler of this emirate located on the edge of the Arabian Desert with no discernible natural advantages. Nowadays the sand has been dethroned by the luxurious futuristic skyscrapers and the exclusive cozy villas scattered around the coastline. And all this is thanks to the vision of Dubai’s ruler – Sheikh Mohammed and the belief in his subjects in his idea to turn his country into the centre of international trading and tourism. His logic is simple: if you build it, they will come.

The audacity of the city’s ruler is breath taking. Running out of coastline to build hotels? Build vast artificial islands with 120km of new beachfront. Need better connections with the world? Build up an award-winning international airline in 15 years.

You’ll fall in love with Dubai
