Accommodation

A large number of rooms have been reserved. Discounted room rates for Neuropsychiatry 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Advances in Neurology and Neuropsychiatry.

About Tokyo

Tokyo, Japan's busy capital, mixes the ultramodern and the traditional, from neon-lit skyscrapers to historic temples. The opulent Meiji Shinto Shrine is known for its towering gate and surrounding woods. The Imperial Palace sits amid large public gardens. The city's many museums offer exhibits ranging from classical art (in the Tokyo National Museum) to a reconstructed kabuki theater (in the Edo-Tokyo Museum). Tokyo is often referred to as a city, but is officially known and governed as a "metropolitan prefecture", which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. Tokyo stores bring the goods of the world home to the domestic market. At the fashionable shops of the Ginza, Harajuku, Aoyama, and Shibuya, discerning Tokyoites can procure the clothing and merchandise of designers from London, Paris, New York, and of course Tokyo. Large, well-supplied department stores can be found throughout the city, like Tokyu, Seibu, and Parco in Shibuya, and Keio, Mitsukoshi, and Isetan in Shinjuku. Ikebukuro is the location of the Tobu department store, which promotes itself as the world's largest.
