Healthcare and Life Science Research often referred to as health care and life science practioner will lecture their latest research and teach on essential topics like health care, pediatric health, geriatric health, Heart and cardiovascular health, which carries cure and prevention, sedation etc.

- Our Conference will provide a perfect platform addressing:
- Commendable talks by the first-string of the global scientific community.
- Sterling workshop sessions.
- Remarkable Awards and Global Recognition to meritorious Researchers.
- Global Networking with 50+ Countries.
- Novel Techniques to Benefit Your Research.
- Global Business and Networking Opportunities.
- Exquisite platform for exhibiting your by-products and International Sponsorship.

# Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Healthcare and Life Science Research are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Advanced Health care & Life Science practice
- Health care management
- Specialist Community Public Health care & Life Science
- Emergency Health care & Life Science
- Disaster Health care & Life Science
- Health care & Life Science Research
- Women Health care & Life Science
- Health Promotion in Health care & Life Science
- Healthcare and Chronic diseases & Prevention
- Critical Care Medicine
- Importance of Nutrition in Health Care
- Health care & Life Science practice
- Advanced Health care & Life Science practice
- Health care management
- Specialist Community Public Health care & Life Science

## Nutrition 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
  - ☞ Health Care: Current Reviews
  - ☞ Journal of Health & Medical Informatics
  - ☞ Primary Healthcare: Open Access

Kyoto is former capital of Japan and for more than a thousand years the centre of traditional Japanese culture and is still considered the Heart and Soul of traditional Japan. It is located 315 miles southwest of Tokyo and 25 miles east of Osaka. Several of the historic temples and gardens of Kyōto were collectively added as a UNESCO World Heritage site in 1994. Kyoto is a sophisticated blend of the ancient and the modern, an urban environment where museums, four star restaurants and active entertainment venues flourish alongside temples, small shops and quiet neighbourhoods.

Kyoto is what most travellers' dream of when envisioning Japan.

This centre of innovation has a reputation for fostering leading research and the development of high technology firms. Kyoto has the highest percentage of academics per capita in Japan with over 40 universities and 50 research organizations. Most of Japan's Nobel Prizes have been awarded to researchers from Kyoto University.

With a proud cultural heritage and modern goals for the future, Kyoto is absolutely unique in Japan. Kyoto's highlights include Fushimi Inari Shrine, the Gion geisha district, Arashiyama's bamboo forest and the historic Higashiyama District. Kyoto is also a culinary centre, and for food lovers there is no better place to begin than "Kyoto's Kitchen," the colourful and boisterous Nishiki Market.
