SCIENTIFIC PROGRAM
Tuesday, 23rd April

09:00-10:30 Meeting Hall 01
KEYNOTE LECTURES

10:30-10:50 COFFEE BREAK

10:50-12:50

MEETING HALL 01
Talks On: Nutrition and Diabetes
- Diabetes Diet, Eating & Physical Activity
- Protein Diet
- Weight-loss planning
- Carbohydrate counting

MEETING HALL 02
Talks On: Nutrition and Immunology
- Immune system boosters
- Enhancing immunity by dietary consumption
- Oats and Barley consumption
- Fortified Cereals, Mushrooms and Herbal tea

12:50-13:35 LUNCH BREAK

13:35-15:55

MEETING HALL 01
Talks On: Animal and Dairy Nutrition
- Dairy products
- Meats and fish
- Food contact surfaces
- Canned seafood products

MEETING HALL 02
Talks On: Malnutrition
- Types and syndromes
- Nutritional deficiency diagnosis
- Prevalence of malnutrition
- Effectiveness of interventions

15:55-16:15 COFFEE BREAK

16:15-17:00 Poster Presentations
17:00-18:00 Workshop

25th European Nutrition and Dietetics Conference

APRIL 22-23, 2019 ROME, ITALY

AGENDA
Abdeen Mustafa Omer (BSc, MSc, PhD) is an Associate Researcher at Energy Research Institute (ERI). He obtained both his PhD degree in the Built Environment and Master of Philosophy degree in Renewable Energy Technologies from the University of Nottingham. He is qualified Mechanical Engineer with a proven track record within the water industry and renewable energy technologies. He has been graduated from University of El Menoufia, Egypt, BSc in Mechanical Engineering.

Aiman Shafique has completed her BSc in Food & Nutrition at the age of 22 years from Lahore College for Women University Lahore Pakistan. She secured 3.73/4.0 cgpa and ranked second in her session. She is looking for scholarships for her masters from abroad. At the same time, she is making her research profile.

Antonios S. Dalakis has been expertise in outdoor recreation activities as a sport teacher. Through this particular engagement, which is carried out close to nature, deals with the subject of nutrition and health? People involved in this sector, either as tourism customers, or as athletes, or as participants from both of the previous categories, are very interested in their nutrition and health.
Title: Cost of Enteral Formulae Feed in Critically Ill Patients in a Tertiary Care Centre: An Observational Study

Apoorv Tiwari S.L.
Raheja Hospital

Biography
Dr. Apoorv Tiwari (presenting author) completed his MBBS from a prestigious government medical college, Vellore, Tamil Nadu and finished his M.D. Internal medicine from Indira Gandhi Govt. Medical college, Nagpur, Maharashtra, India. He has keen interest in critical care and cardiology and wish to go ahead with researches focusing on nutrition in critically ill patients. To find newer ways strengthen the nutritional status of critically ill. Recently conducted a national level with workshop under his mentor and guide Dr. Sanjith saseedharan on nutrition in critical care patients for doctors and dieticians.

Title: Sub Iron Deficiency and its Level in Iranian Pregnant Womenject

Atousa Homafar
Islamic Azad University, Tabriz

Biography
My name is Atousa Homafar, PHD in Dietitian and Nutrition, Assistant Professor in Medical University. I begin with my husband that specialist in hematology to publish paper in nutrition and hematology combine field.

Title: My name is Atousa Homafar, PHD in Dietitian and Nutrition, Assistant Professor in Medical University, I begin with my husband that specialist in hematology to publish paper in nutrition and hematology combine field.

Marilou Ouellet
University of Quebec in Trois-Rivières

Biography
Marilou Ouellet is a doctoral student in psychology at the University of Quebec in Trois-Rivières (Canada). Her research focuses on eating disorders and physical self-perceptions in athletes and non-athletes. She is involved in the organization of a multitude of scientific events and she is the scientific coordinator at the Transdisciplinary Research Group for Eating Disorders (Loricorps) since 2014.
Title: Binge Eating Addiction among women who suffer from psychological abuse in their relationship: The moderating role of defines mechanisms

Orly Yona Drori
Clinical Dietitian B.Sc. Lev
Hasharon Mental Health Medical Center.

The participants will be able to recognize the predictors of Binge Eating addiction among women who suffer from psychological abuse in their relationships and will recognize the role of woman's defense mechanisms in moderating the association between psychological abuse and Binge Eating addiction.

Title: Certain properties of the natural mineral water suitable for hydration in children

Dusan Avramovic
City Institute of Public Health of Belgrade

Dušan Avramović is professionally and personally focused on improving the human health and wellbeing through lifestyle changes supported by evidence-based knowledge on proper nutrition and adequate hydration. His expertise in preventive medicine and public health is daily brushed through professional engagement in Department for Water of City Institute for Public Health of Belgrade.

Title: Phase Nutrition – New Model Nutrition of Humans

Emil Mukhamejanov
doctor of medical sciences

**Title:** Evaluation of the Determinants of Excessive Gestational Weight Gain and its Associated Complications among Pregnant Women in Alexandria: A Longitudinal Prospective Study

**Biography**

Dr. Germine El Kassas works as a head of the nutrition department in Alexandria pediatric center. She worked as an Assistant Professor of Nutrition and Coordinator of Nutrition and Dietetic Department, Faculty of Health sciences at Beirut Arab University for 8 years. Dr. El Kassas Graduated from the faculty of Medicine – University with excellent degree.

---

**Title:** Chemical Composition and Nutritional Evaluation of Date Palm (Phoenix dactylifera L.) Seed Oil from Six Cultivars

**Biography**

Imededdine Nehdi has her expertise in characterization, evaluation and application of new seed oils. He investigated the uses of seed oils in food and non-food applications such as biodiesel, cosmetic, pharmaceutical or other applications. He also studies the relationships between the oil composition and the prevention of inflammatory diseases. The ant proliferative activity of some oils was also investigated. He published more than seventy papers.

---

**Title:** Fortified milk with vitamin D as a cost-effective food to prevent diabetes: A randomized double-blind clinical trial

**Biography**

Vitamin D has a role in both insulin secretion and insulin sensitivity, and thus could be important in the pathogenesis of diabetes. The aim of this study was to compare the effect of milk fortified with vitamin D and oral vitamin D supplement on glycemic and anthropometric indices in pre-diabetic individuals.
Title: Biofortification Of ‘Ogi’ Made From Selected Grains.

Olusola Abiola Ladokun
Lead City University

Biography

Olusola Abiola Ladokun is a Professor of Nutritional Biochemistry in the Department of Biochemistry, Faculty of Sciences, Lead City University, Ibadan. She holds a PhD in Agricultural Biochemistry and Nutrition from the University of Ibadan, Ibadan, Nigeria. She is the current serving Dean of the Faculty of Basic Medical and Applied Sciences. She has to her credit several articles in both local and international journals, chapters in books and conference proceedings. Her areas of research include but not limited to Food Chemistry, Ethnopharmacology, and Functional Foods.

Title: Assessment of iodine content in commonly consumed salts

Akinola Oyetunji Olayiwola
Human nutrition Department
faculty of public health

Biography

Akinola Oyetunji Olayiwola has completed his Masters degree at age of 26 years from University of Ibadan Human Nutrition Department faculty of public health. He led the department of Nutrition and Dietetics where he lecture as HOD for more than 5 years. Author ;f many journals

Title: Nurses Perspective on complementary feeding practices (Preliminary Study)

Salma AlMahrouqi
Sultan Qaboos University Hospital

Biography

Inappropriate complementary feeding practices are a major contributor to poor nutrition status among children under two years. Encouraging and supporting appropriate complementary feeding practice by nurses is critical elements of efforts to address malnutrition in childhood.
Vidushi Agrawal; a Homeopath, Dietician & Nutritionist by Qualification, however, actively 100% dedicatedly practicing Dietetics & Nutrition only, since 2008. After years of practice of Homeopathy, I realized there was a Maintaining Cause always which would slow down or create an obstacle in the healing process. Hence, through observation and clinical trials on myself, my near family, I came up to a strong belief that the maintaining cause was none other than LIFESTYLE & FOOD.

Vitamin D (Vit D) is suggested to play a role in the regulation of physical function as well as in depression. Since, Vit D deficiency is common in patients with diabetes.

Objective: this study aims to explore if Vit D levels are associated with depressive symptoms among diabetic patients in North East of Morocco, and to correlate between the presence of depression and vitamin D level.

Methods: The study was conducted as a cross-sectional from 1 December 1st, 2016 to March 30, 2017 in the reference center of diabetology in Oujda Morocco. A structured questionnaire was used for collecting the information about sociodemographic data.

Chika C. Ogueke obtained his first degree in Microbiology from University of Benin, Benin City, Nigeria, an MSc and PhD in Industrial Microbiology from Federal University of Technology, Owerri, Nigeria. He is currently a Reader in the Department of Food Science and Technology, School of Engineering and Engineering Technology, Federal University of Technology Owerri, Nigeria, and Deputy Director Centre for Entrepreneurial Studies (CES), Federal University of Technology, Owerri, Nigeria.
Title: New Evidence to Prove Green Jackfruit Can Reduce Lifestyle Diseases and Demand for Diabetic Medication

James Joseph
Own Food Solutions Pvt Ltd

Biography

Title: Knowledge, attitudes, and practices toward salt consumption among young adults in Astana, Kazakhstan

Mina Aubakirova
Mina Aubakirova

Biography
Mina Aubakirova has completed her Bachelor’s of Business Administration from KIMEP University, Kazakhstan’s top business school, located in Almaty. She is currently doing her last semester of Master’s in Public Health in Astana at the country’s top medical school at Nazarbayev University.

Title: Targeting Colorectal Cancer with Omani Wild Edible Plants

Nejib Guizani
Sultan Qaboos University

Biography
Cancer (CRC) is the third most common type of cancer in terms of incidence and the fourth in cause of death world-wide. Clinical trials and observational studies continue to support the notion that CRC is a lifestyle-related syndrome in which oxidative stress is a cofactor. There are many wild plant species in Oman that can be used for medicinal purposes because of their bioactive constituents; these plants are usually called medicinal indigenous plants.
Title: Quality control of rice seeds by X-ray method

Adkham A. Paiziev
New Max Technology

Deanna Mulvihill has her expertise in evaluation and passion in improving the health and wellbeing. Her open and contextual evaluation model based on responsive constructivists creates new pathways for improving healthcare. She has built this model after years of experience in research, evaluation, teaching and administration both in hospital and education institutions.

Title: Nutrient content of the frequently used complementary foods for children aged 6-23 months in Rombo District-Tanzania

Anna peter
Sokoine University of Agriculture

I am a Tanzanian woman, aged 32 years and a holder of Msc. Human Nutrition from Sokoine University of Agriculture, Morogoro-Tanzania. I have been working with various academic and non-academic researchers in collecting, entering, analysis of data as well as report writing. I was among the top three candidates in both my undergraduate and postgraduate studies.

Title: Can green jackfruit flour as a nutritional supplement replace haemopoietic growth factor?

James Joseph
Own Food Solutions Pvt Ltd

Title: Effect of different levels of oral bovine lactoferrin from iron-fortified formula on iron metabolism of anemic infants

Biography
Ke Chen has completed his PhD from the Department of Pediatric of Chongqing Medical University and his majority is Child health care including nutrition, growth and development. He is the leader of the department of Nutrition of Chengdu Women’s and Children’s Central Hospital. He has published more than 30 papers in reputed journals and has been serving as several vice chairpersons and standing committee members professional committee from China.

Title: Relation Between Food Composition And Prevalence Of Anemia Among Young Children In West Cameroon

Biography
Mananga holds a PhD in Biochemistry, specialized in Food Science and Nutrition from the University of Douala. Her research work is in the field of Food Science and Nutrition and focused on Infant and Young Children Nutrition particularly Importance of Nutrition in treatment of Iron Deficiency Anemia and others micronutrients deficiencies.

Title: What is so special about the Mediterranean diet in the Maghreb?

Biography
The Mediterranean diet has gained enormous popularity because it has been associated with lower death rates from coronary heart disease and certain types of cancer. The term ‘Mediterranean diet’ is very loose since geographical, political and religious limits prevent a uniform dietary pattern across the Mediterranean countries and directly influence the dietary customs and habits.
Title: Subject: Some Productive Performance Of Growing Japanese Quail As Affect By Dietary Moringa

Abd EL-Latif
Faculty of Agriculture, Minia University

Biography
Three hundred one day old, unsexed growing Japanese quail were performed to evaluate the effect of using the levels of 0.0, 0.2, 0.4 and 0.6% of Moringa leaves (ML) as feed additions in Japanese quail diet on some productive performance and carcass characteristics.

Title: Food habits and its associated risk factors in women's life style

Lida Simionides
Elie Bou Yazbeck, Ph.D

Biography
This study is a cross –sectional survey conducted among pre-post-menopausal Lebanese worker women coming from different workplaces in Keserwan and Byblos areas. The participants were recruited using a stratified random sampling method. Four hundred Seventy Lebanese worker women were included in this study (n=470; 289 premenopausal, 181 post-menopausal). None worker women and women receiving hormonal treatment were excluded.

Title: Pre-natal folic acid and iron supplementation and atopic dermatitis

Cristina Fortes
Istituto Dermopatico dell’Immacolata

Biography
Nutrition and environmental exposure in utero have been suggested to influence health later in life. The aim of this study was to investigate, if the use of prenatal food supplements were associated with atopic dermatitis in the offspring. Mothers who gave birth in the hospital G.B. Grassi) were invited to participate in the study (n=395). Information on socio-demographic characteristics, clinical data of the mothers and babies, vegetables and fruit intake, food avoidance and food supplements use during pregnancy, depression status and environmental exposure was collected for all subjects in the hospital at the time of delivery.
Title: Managing diabetes through diet

Carmen Ghantous
registered dietician

Biography
Carmen Ghantous is a registered dietitian who founded Carmen’s Diet Clinic in 2013. She offers nutrition and wellness counseling to individuals and corporations.

Carmen is a specialist in weight management, diabetes, cholesterol, triglycerides treatments, athletes, children, pregnant, breastfeeding women and elderly people nutrition.

Title: Examining the Connection between Food Addiction and Human obesity

Ruba Musharbash
Jordan University

Biography
Ruba Musharbash holds a Ph.D. degree in nutrition and dietetics, from Jordan University. Her Doctoral research investigated the prevalence of food addiction in Jordan and its correlates with obesity, BMI, gender, besides exploring the effect of weight loss reducing programs on subjects with food addiction. Her main research interests centers on food addiction prevalence and obesity management.

Title: Proximate composition, functional properties, amino acid, mineral and vitamin contents of a novel food: Alhydwan (Boerhavia elegana Choisy) seed flour

Ammar AL-Farga
University of Jeddah

Biography
Alhydwan seed flour is a rich source of nutrients, crude protein, carbohydrates and dietary fiber. Alhydwan seed flour could be considered an alternative source of dietary fiber.
Title: Development of a Feta Type Cheese from Buffalo Milk

Biography
Cheese ripening identifies as an expensive complicated task and sometimes it could lead to undesirable flavour too. Nowadays Cheese carries a growing demand for different cheese varieties, especially in hotel industries in Sri Lanka. However, strong flavour cheese is rejected in Sri Lankan cuisine.

Iromi Wijethunge
University of Peradeniya

Title: Let’s look at acute pneumonia from a different perspective

Biography
Excessive fascination with antibiotics as a universal remedy gradually and imperceptibly narrowed the perception of the nature of many diseases. To date, the main treatment of acute pneumonia (AP) is similar to the treatment of diseases with fundamental differences in their localization, mechanism of development and clinical manifestations.

Igor Klepikov
Pediatric surgeon

Title: Therapeutic ketosis and the broad field of applications for the ketogenic diet: Ketone ester applications & clinical updates

Biography
Raffaele Pilla, Pharm.D., Ph.D., Doctor Europaeus, received his Master’s degree in Pharmacy at G. d’Annunzio University in Chieti-Pescara, Italy in 2005, where he also served internships at the Cell Physiology Laboratory and Molecular Biology Laboratory. Prior, he was an Erasmus Student at Faculté de Pharmacie de Reims in Reims, France.

Raffaele Pilla
God Hospital
Title: Why Our body acts against Facts of Physics in Fever

K. M. Yacob
Marma Health Centre

Biography
A practicing physician in the field of healthcare in the state of Kerala in India for the last 30 years and very much interested in basic research. My interest is spread across the fever, inflammation and back pain. I am a writer. I already printed and published nine books in these subjects. I wrote hundreds of articles in various magazines.

Title: Effects of chronic supplementation with nitrate-rich beetroot juice on cardiovascular responses in healthy adults

Luke A Stanaway
Massey University

Biography
Luke Stanaway is currently completing his PhD in Exercise and Sport Science at Massey University, New Zealand. He obtained his first journal publication in the first year of his PhD, with a systematic review in Nutrients and currently has a primary research article under review.

Title: Micronutrients deficiency in Georgia

Robizon Tsiklauri
GNMSS Project Manager

Biography
Robizon Tsiklauri has good experience in nutritiology, clinical epidemiology and research, working during many years in relevant fields, and has made training programs for doctors, which was about problems in Nutritiology and clinical epidemiology issues. He is reading several lectures in High Medical University, attending many popular TV & Radio programs of educating population and Health workers in nutritiology. He is managing of postdoctoral educational programme of qualification at the Tbilisi State Medical University. In 2005-2007 he used to be temporary advisor of WHO (Europe regional office of Europe) in Food and Nutrition field.
Title: Proximate composition, functional properties, amino acid, mineral and vitamin contents of a novel food: Alhydwan

Ammar AL-Farga
University of Jeddah

Biography

Alhydwan seed flour is a rich source of nutrients, crude protein, carbohydrates and dietary fiber. Alhydwan seed flour could be considered an alternative source of dietary fiber. It contains adequate amounts of essential minerals (calcium, potassium, magnesium, sodium, iron and zinc). In addition, it has relatively high levels of protein and contains most essential amino acids.

Title: Validation of the Subjective Global Assessment nutritional screening tool among surgical patients in black lion specialized hospital Addis Ababa, Ethiopia

Serge Batcho
Medical Doctor majoring in Public Health Nutrition

Biography

Serge Batcho is a Medical Doctor majoring in Public Health Nutrition. This research has been conducted as part of his MPH thesis. Findings could benefit health care systems to have validated and appropriate screening tool for surgical patients and in a long term.
