

World Congress on
Oil & Gas Engineering

September 28-29, 2020 | Auckland, New Zealand

*Theme: “Enhancing Industry
Development through Technology”*

Invitation...

Dear Colleagues,

World Congress on Oil & Gas Engineering (OIL GAS 2020) extends its welcome to you during **September 28-29, 2020** at **Auckland, New Zealand**. with a theme "**Enhancing Industry Development through Technology**". Conference Series LLC Ltd Organises 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 50000 eminent personalities, reputed scientists as editorial board members.

The **OIL GAS 2020** intends to gather all the people across the globe like students, lecturers, Assistant Professors, Professors, Directors, Chairman, Chancellor, Scientists, Doctors, Managing Directors, Chief Executive Officers, Presidents and Noble Laureates and base a platform for them to share their experience, knowledge and research work, recent advancements in the field of Oil & Gas Engineering.

Why to Attend???

Oil and Gas Conference aims at the multi-disciplined audience with diverse commercial, technical, corporate, operations, planning sectors of the upstream oil and gas engineering services. Meet Your Target Market with members from around the world focused on learning and sharing about Upstream Scientists/Engineers; this is your single best opportunity to reach the largest assemblage of participants from the global Oil and gas engineering industry. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with a new product line, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, tactics, and the newest breakthroughs in the upstream sector of oil and gas engineering are hallmarks of this conference

The background of the page is a faded, artistic rendering of a city street. On the left, there are tall buildings. In the center, a prominent tower with a pink and blue color scheme, resembling the CN Tower, stands out against a light blue sky. The street below is filled with cars and buildings, creating a sense of a busy urban environment.

Conference Sessions:

All honorable authors, researchers, scientists and students are encouraged to contribute and help the shape of the conference through submissions of their posters & research abstracts. Also, high quality research contributions describing original and unpublished of conceptual, constructive, experimental or theoretical work in all areas of Oil & Gas Engineering are warmly invited for presentations at the conference. The conference memorial contributions of abstracts and posters that address themes & future aspects of the conference related sessions.

- Oil Formation
- Advanced Oil and Gas Technologies
- Global Oil and Gas
- Biofuels & Biodiesels
- Enhanced Oil Recovery
- Oil and Gas Industries
- Oil and Gas Markets & Strategies
- Petroleum and Petrochemicals
- Transporting Oil and Gas
- Oil Refining
- Upstream Processes
- Midstream Facilities
- Downstream Technologies
- Exploration and Production
- GIS and Remote Sensing
- Oil and gas impacts
- Business Transformation

OIL GAS 2020

- Opportunity to attend the presentations delivered by eminent scientists and business professionals from all over the world.
- Selected contributions will be published in following reputed high impact factor Journals.
 - ☞ Oil & Gas Research
 - ☞ Journal of Chemistry and Applied Chemical Engineering
 - ☞ Journal of Soil Science & Plant Health

Program at Glance

September 28, 2020

Time	Session
08:30 - 09:30	Registrations
09:30 -11:30	Keynote Forums
	Group Photo
11:30 -11:45	Network & Refreshment Break
11:45 -13:00	Oil Formation Advanced Oil and Gas Technologies Global Oil and Gas
13:00 -13:45	Lunch Break
13:45 -16:00	Biofuels & Biodiesels Enhanced Oil Recovery Oil and Gas Industries
16:00 -16:15	Network & Refreshment Break
16:15 -18:00	Oil and Gas Markets & Strategies Petroleum and Petrochemicals Transporting Oil and Gas
	Day Concludes

September 29, 2020

Time	Session
08:30 - 09:30	Registrations
09:30 -10:30	Keynote Forums
10:30 -11:30	Oil Refining Upstream Processes Midstream Facilities
11:30 -11:45	Network & Refreshment Break
11:45-13:00	Downstream Technologies Exploration and Production
13:00 -13:45	Lunch Break
13:45 -16:00	Oil and gas impacts
16:00 -16: 15	Network & Refreshment Break
16:15 -18:00	Poster Presentations

Day Concludes

Award Ceremony

Conferece Concludes

City Attractions

Venue :

Auckland, New Zealand

Auckland is a city in the North Island of New Zealand. The most populous urban area in the country, Auckland has an urban population of around 1,570,100 (June 2018). It is located in the Auckland Region—the area governed by Auckland Council—which includes outlying rural areas and the islands of the Hauraki Gulf, resulting in a total population of 1,618,400. Auckland is a diverse, multicultural and cosmopolitan city, home to the largest Polynesian population in the world. A Māori-language name for Auckland is Tāmaki ([tɑ:maki]) or Tāmaki Makaurau, meaning “Tāmaki with a hundred lovers”, in reference to the desirability of its fertile land at the hub of waterways in all directions.

Auckland lies between the Hauraki Gulf of the Pacific Ocean to the east, the low Hunua Ranges to the south-east, the Manukau Harbour to the south-west, and the Waitakere Ranges and smaller ranges to the west and north-west. The surrounding hills are covered in rainforest and the landscape is dotted with dozens of dormant volcanic cones. The central part of the urban area occupies a narrow isthmus between the Manukau Harbour on the Tasman Sea and the Waitematā Harbour on the Pacific Ocean. Auckland is one of the few cities in the world to have a harbour on each of two separate major bodies of water.
