B2B Meetings

Venue

Helsinki, Finland

Important Dates

Abstract submission opens: June 01, 2019

Registration opens: June 01, 2019

Early bird registration: October 23, 2019

On spot registration: November 25, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Oncopathology 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Alternative and Traditional Medicine.

About Helsinki

The city of Helsinki, located at the Northern coast of the Baltic Sea, has stood here nearly 470 years still being a people-sized city where one can easily feel at home. It may seem like a curious choice for a holiday destination but once you get to know it, you will love it. Explore some of the best Helsinki has to offer as it must neither be exquisite nor expensive. Mannerheimintie is flanked by institutions including the National Museum, tracing Finnish history from the Stone Age to the present. Also on Mannerheimintie are the imposing Parliament House and Kiasma, a contemporary art museum. Ornate red-brick Uspenski Cathedral overlooks a harbor. Finland is the third most expensive country in the Europe and the second most expensive country in the Europe area. December 1917 Finland declared independence from Russia, and a brief but bloody civil war ensued in the capital between conservative government troops (known as the Whites) and leftist rebel units (known as the Reds) occupying the city. Conditions soon became more stabilized, with the Helsinki parliament electing Finland's first president in 1919. In subsequent decades Helsinki developed into an important center of trade, industry, and culture, a process interrupted only by World War II.
