Opioids 2018

San Diego could be a major town in CA, USA. it's in San Diego County, on the coast of the ocean in Southern CA, around one hundred twenty miles (190 km) south of Los Angeles and now adjacent to the border with Mexico.

San Diego has been referred to as "the birthplace of California". The town is that the seat of San Diego County and is that the economic center of the region still because the San Diego–Tijuana metropolitan space. San Diego's main economic engines square measure military and defense-related activities, tourism, international trade, and producing. The presence of the University of CA, port of entry (UCSD), with the related UCSD center, has helped build the realm a middle of analysis in biotechnology.

The calculable population of 1,406,630 as of San Diego July 1, 2016 is that the eighth-largest town within the us and second-largest in CA. It's a part of the San Diego–Tijuana urban sprawl, the second-largest trans-border agglomeration between the US and a bordering country when Detroit–Windsor, with a population of 4, 922,723 people. The town is thought for its delicate year-round climate, natural deep harbor, in depth beaches, long association with the us Navy, and up to date emergence as a health care and biotechnology development center.
