Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Optical Fibre 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Optical Fibre Communications.

About Yokohama

Located on the western coast of Tokyo Bay directly south of Tokyo. Yokohama is the second largest city in Japan and one of the cities most used to seeing foreigners. Yokohama was the first port opened up to foreign trade after the opening of Japan in 1854. At the forefront of the Meiji restoration, the first train line in Japan connected Tokyo and Yokohama. Yokohama is located only half an hour away from Tokyo. Yokohama does not have its own airport. You can reach Yokohama from Tokyo's two main airports. The year around bustling streets proves the fun-filled excitement of the town. Being a trendsetting city of its local fashion brands, Motomachi represents Yokohama as a fashion-oriented region. The classical western residential area in Yamate where foreigners first settled when the port opened. A visit to Sankeien, a Japanese garden with historic architecture where you can enjoy the seasonal changes in the scenery. Yokohama is a city of art and culture where new urban values and fascination continue to be generated through the creativity given by such art and culture.
